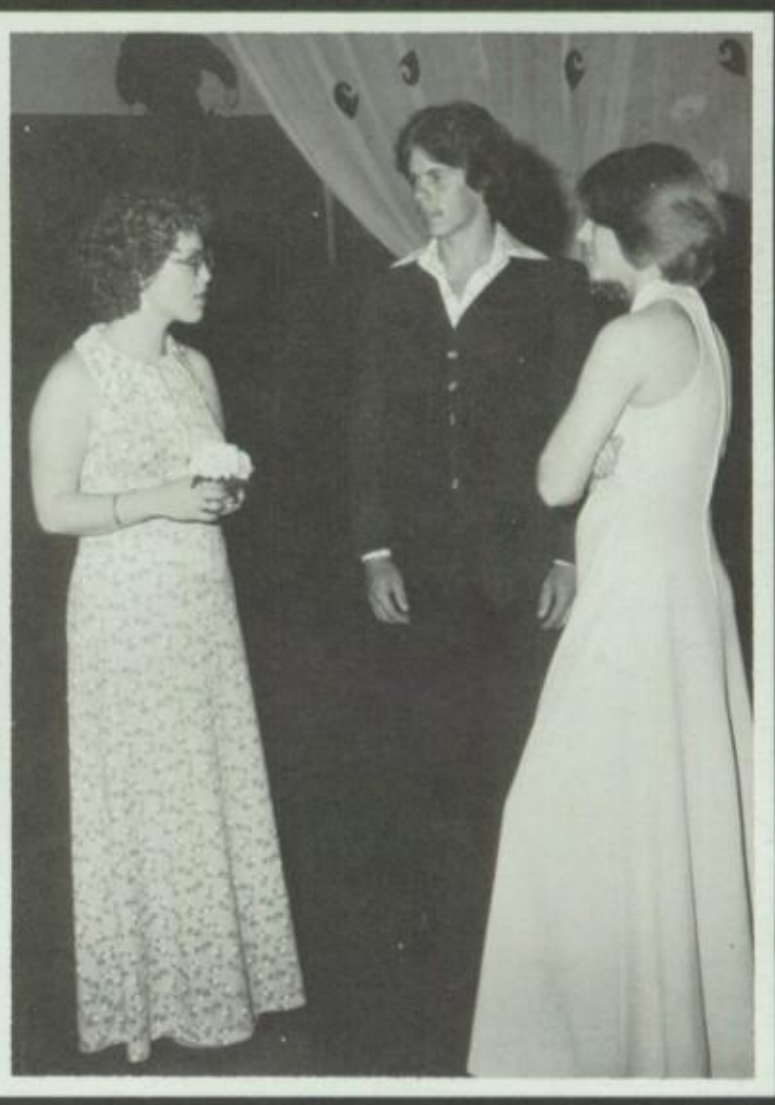
IN APPRECIATION

Throughout the hours, and days, and months the 1979 Yearbook staff has spent working with Mrs. Lyn Ofrane, eight simple words could always be heard. We've all been guilty of saying "Mrs. "O" come here, I need your help." And no matter how long it took, Mrs. "O" would manage to get to everyone who needer her. She hasn't actually been our teacher – not in the strictest since as most people define a teacher – but she has also been a guide and most importantly – a friend to each one of us. We've discovered our own creativity with Mrs. Ofrane, we've worked to meet deadlines with Mrs. "O", and we've laughed with Mrs. "O".

Even though her hair is always curly and her ever present skirt seems to grow on her, the 1979 Yearbook staff is positive that the creation of the 1979 Eagle, as it appears to you, would never have been possible without her.

Thanks a lot Mrs. "O" and we love ya.



IN LOVING MEMORY OF:

Mary Karhnak

"To every thing there is a season,
and a time for every purpose
under the heaven:
A time to be born, and a time to die . . .
A time to weep, and a time to laugh . . .
A time to mourn, and a time to dance . . .
A time to get, and a time to lose . . . "

from Ecclesiastes 3:1-6

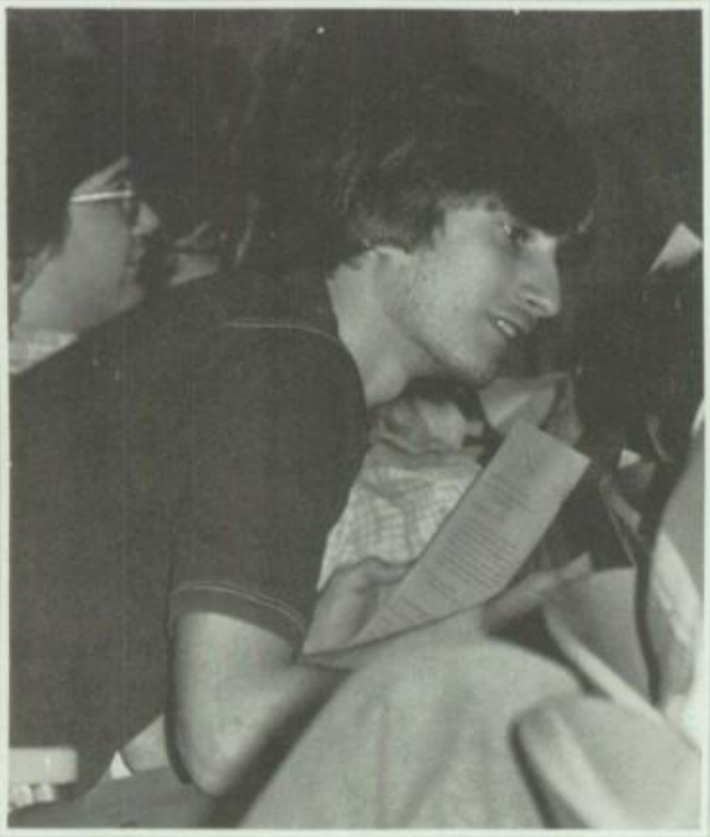
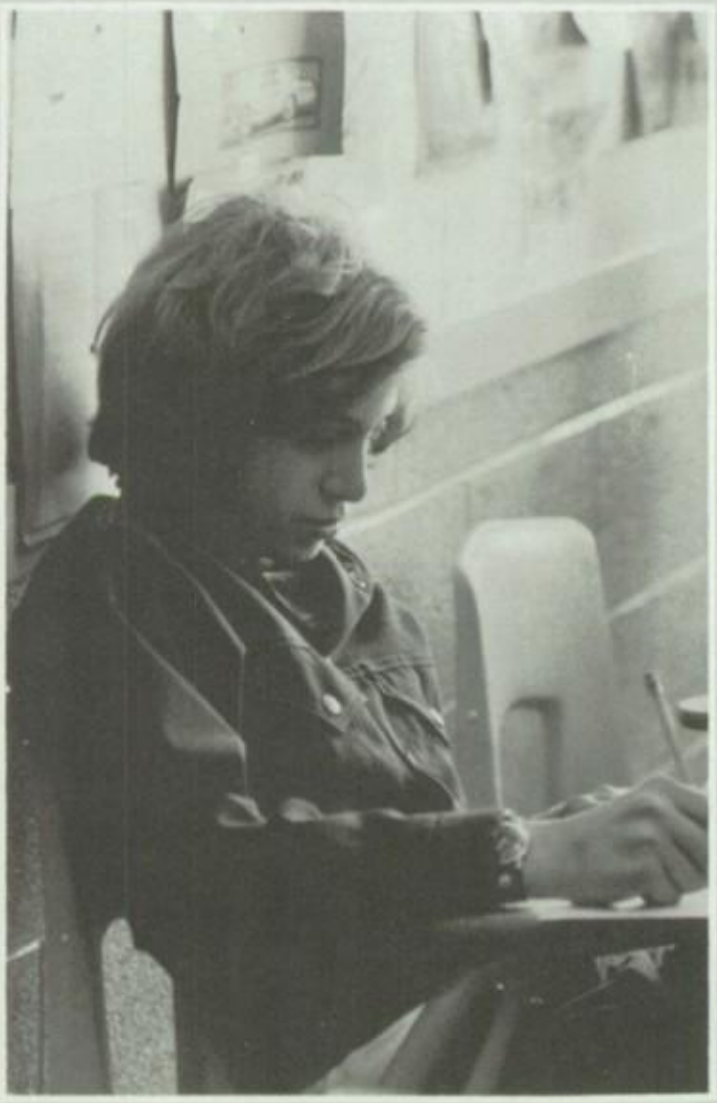
Pride is different things to different people. For some it is studying extra hard to make **GOOD GRADES.** Taking advantage of the academic level their school offers. For other's it's just managing to remember what books to take to which class and beating the good old tardy bell.

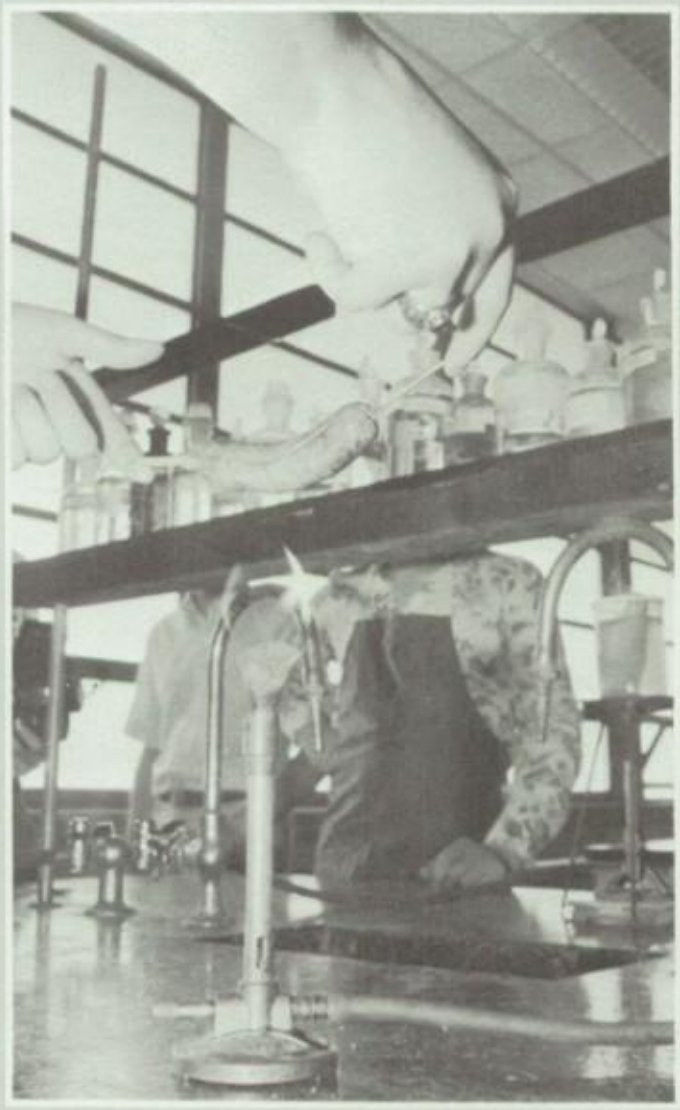


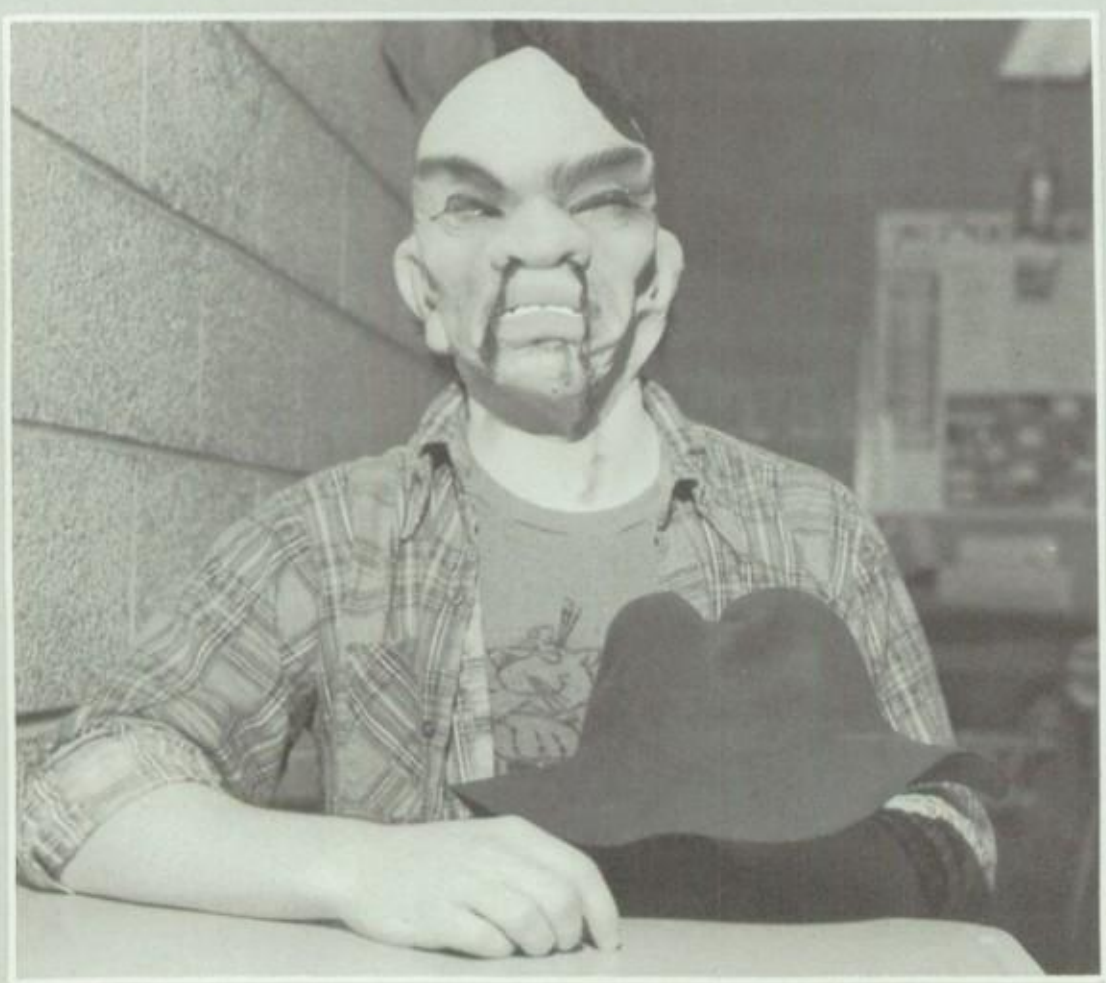


We receive two types of education at school – academic and social, each as important as the other. We find time to interact with others. Specialized friendships are just as vital. **RELATIONSHIPS** in which we can talk and share on a one to one basis. This strengthens and helps us grow more independent.

Band members puff until they're all puffed out, trying to reach that highest note. Players life weights and run through the drills, ignoring the aches and pains and the growing feeling that they have endured about all they can. Each group practices their respective parts, knowing that their **PERFORMANCE** will reflect their pride and love for their school.

Involvement takes a willingness to give of yourself. We can offer something different. Leadership abilities or artistic and **CREATIVE** flair. Talents great and small, visible or hidden. That's not important, what matters is that we be willing to share our time and talents so that others may benefit.





Today ... we remember the excitement of a united spirit, the challenge of knowledge, the warmth of a smile, and the endless march of time itself. Let us remember what we have learned and let us learn from what we remember.

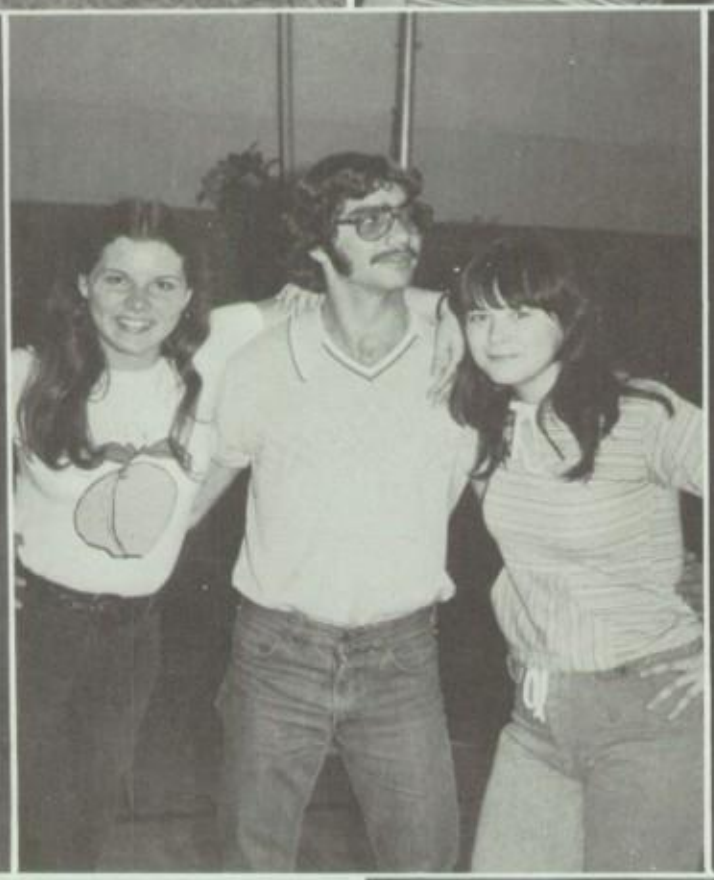
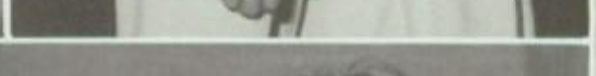
GRADUATION 1979:
THE LAST MILE





And what do we remember ?

We looked back and remembered the happy times, feeling the rewards of hard work and dedication. At other times we felt all alone, isolated in the midst of a crowd. Our existence was one of constant new beginnings and continous endings that filled our lives and our memories. It was our year, molded by the vast and diverse character of who we were and had become.

Faces . . . Pleasant, surprised, posed, and priceless. The faces of our friends . . . caught in a moment . . . captured for our memory.

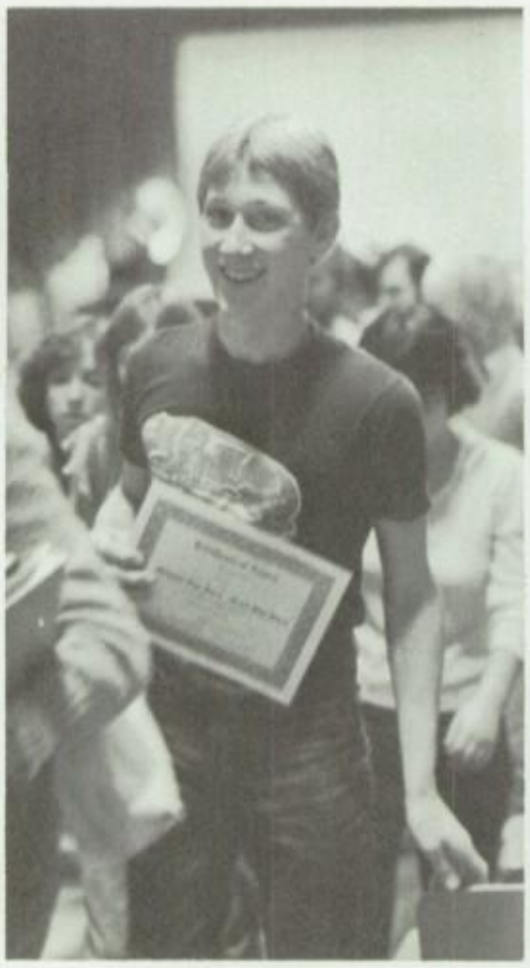
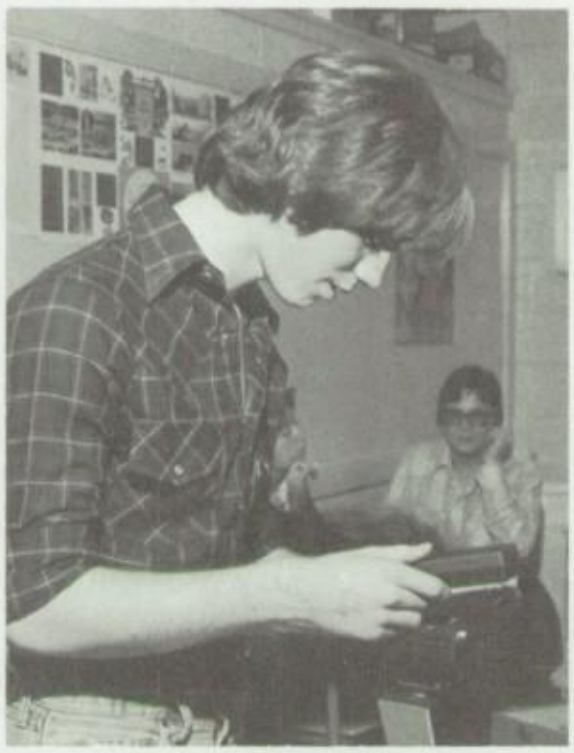
ONE DAY AT A TIME!



Won't mom be proud of me!!



Oh no, I think I broke it.

I'm not playing so why not pose.

Together forever!

Mmmmm, 11:32 – I wonder what he's doing now.

I wonder what's for lunch.

What's new pussy cat?

Does somebody have a mirror??

School sports are the center of school spirit. Making a team calls for practice and perfection, decisions, and heartaches, as well as disappointments. These form a background long before the contest is won or lost.

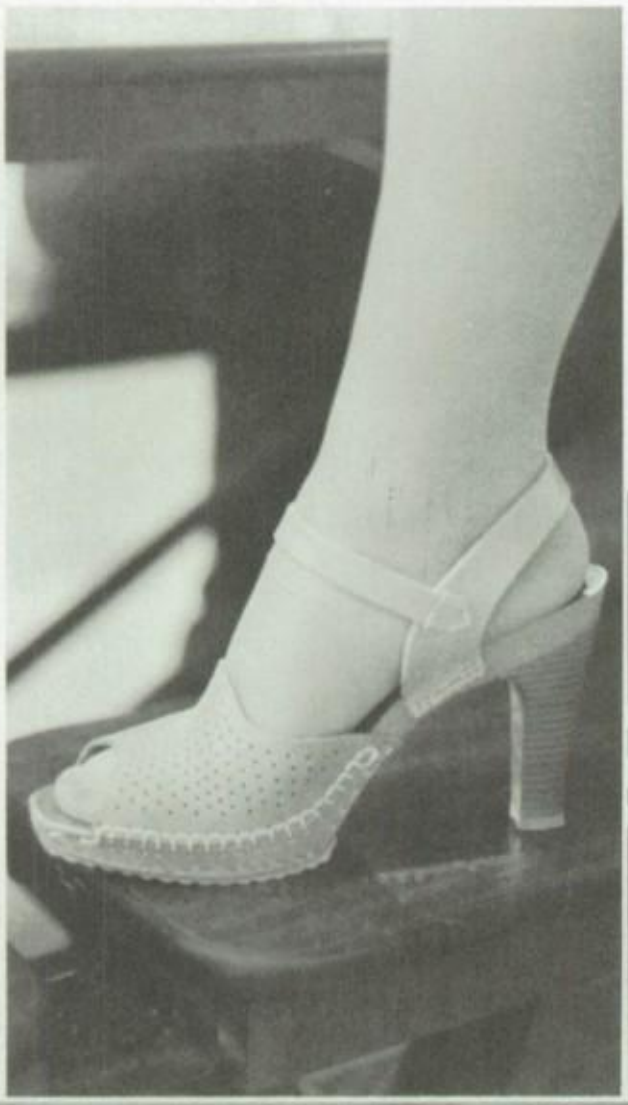
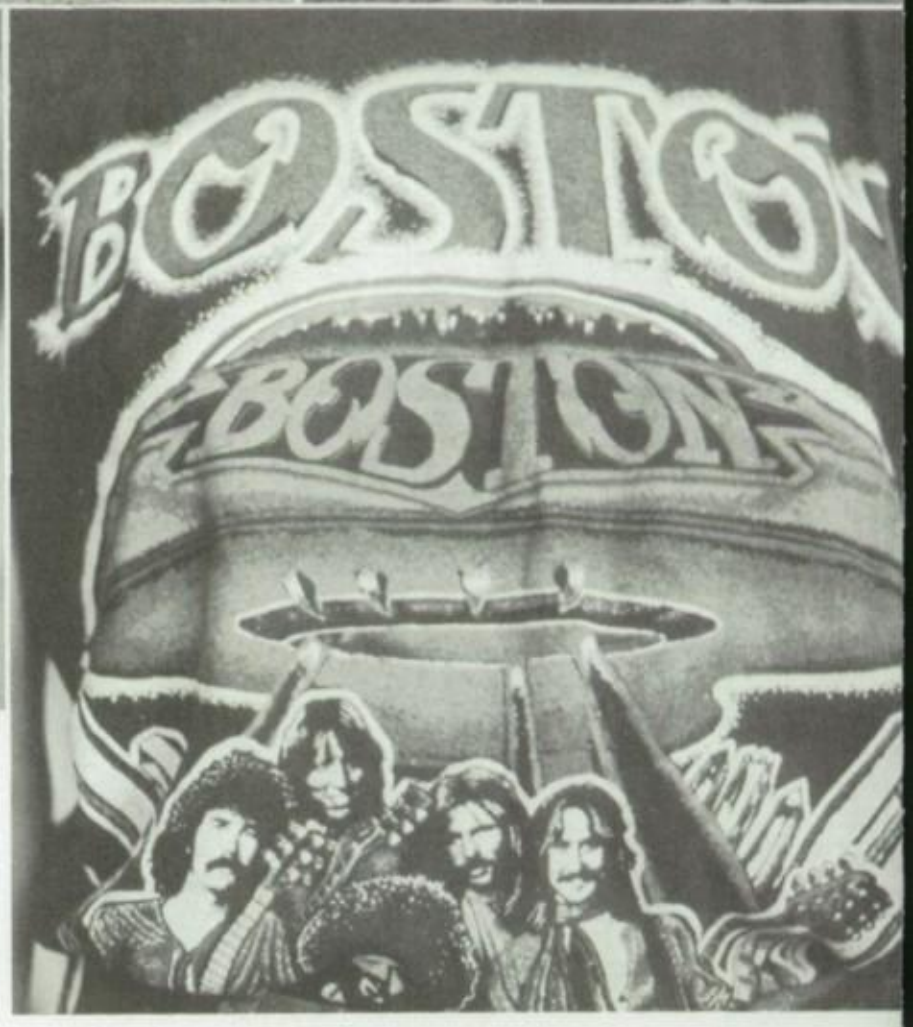
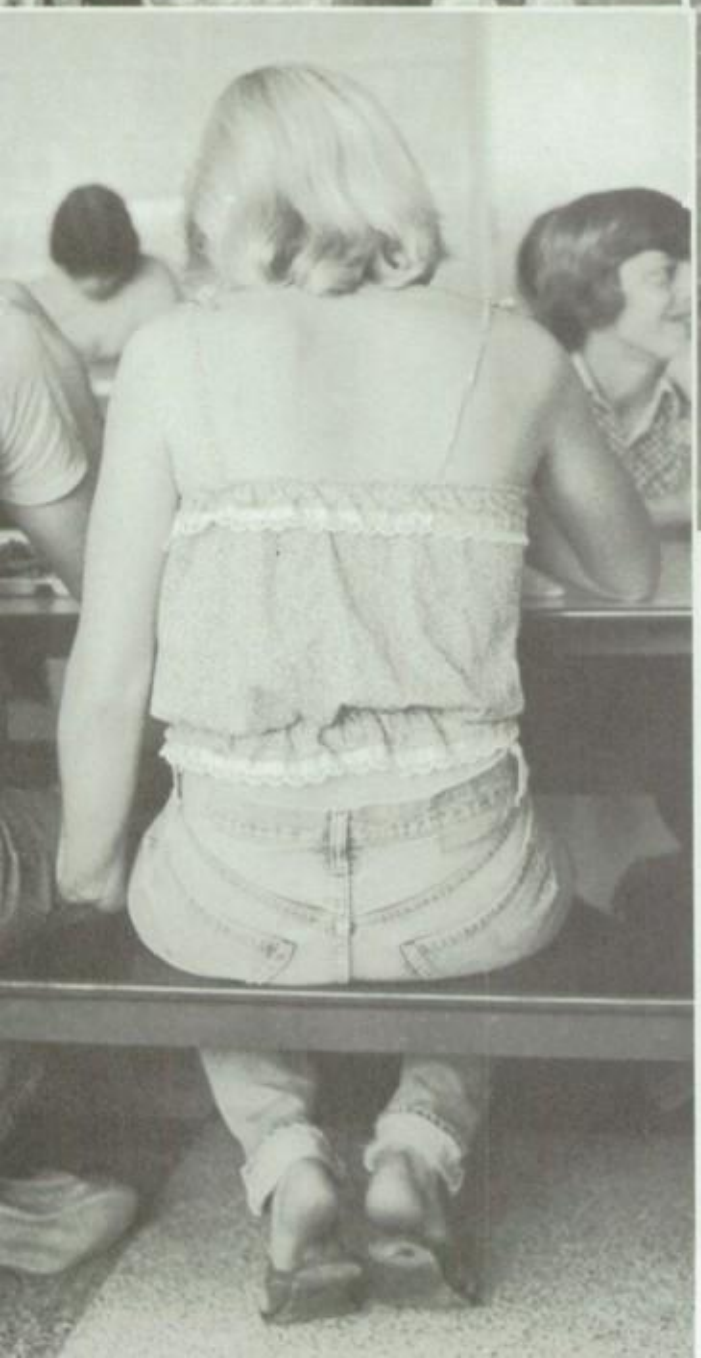
Fashion

Fads







Gone are the days of plain white shirts, black ties and stereotyped fashion. We're in a new age with a new generation where individuals have found another testing ground for non-conformity. The styles were varied. Whether T-shirts and blue jeans or the latest fashions, all could be found in the halls of Mountain View. The year 1979 told a new story of Fashion Fads.

It is sometimes difficult for a student, when seated in a classroom, to think of a teacher as being anything other than a teacher. The person holding that gradebook or writing on the blackboard does have a life outside of school. Teachers want, very much, for their students to succeed, to do well.

MISSION: EDUCABLE

Good morning Mr. Snyder. With the implementation of the 1978-1979 Mountain View School year, it has become increasingly apparent that a high standard of education must be continued.

Your mission, Chuck, if you should decide to accept it, is to continue this standard of education throughout the Mountain View District. As always, should any of your EMForce be caught or killed, the secretary will disavow any knowledge of your actions. This yearbook will self-destruct within 500,000,000 years. Good Luck, Chuck!

As he intently watched the yearbook slowly disintegrate, his process of thought became involved in the mission. Realizing this was no easy task, he turned to his Educable Missions file to choose the elite staff necessary to procure the objective at hand. Being aware of the challenge that awaited, he immediately attained the guidance and partnership of Mr. Robert W. Klenk to choose his own staff of experts of the elementary level of education. Then, with his intuitive talent, he commenced in the grueling process of choosing his own exceptionally skilled staff of experts to be known as THE MOUNTAIN VIEW HIGH SCHOOL FACULTY.

(The accompanying statistics have been derived from questionaires submitted by the faculty. Certain portions of this material have been consolidated to produce a more interesting format.)

Mr. Charles Snyder; Secondary School Principal

Mr. Robert W. Klenk; Elementary School Principal

Mr. James Neddoff; Superintendent of Mountain View School District

LANGUAGE DEPARTMENT

First, he started with the language department with the intent to staff it with the greatest minds available in this field of endeavor. In choosing his language staff, Mr. Snyder wished to choose not only individuals with the necessary background, but also a substantial amount of drive and desire. "My language department," thought Mr. Snyder, "should be able to work together, think and produce desireable results together. With this group of people, I feel we can achieve the desired products."

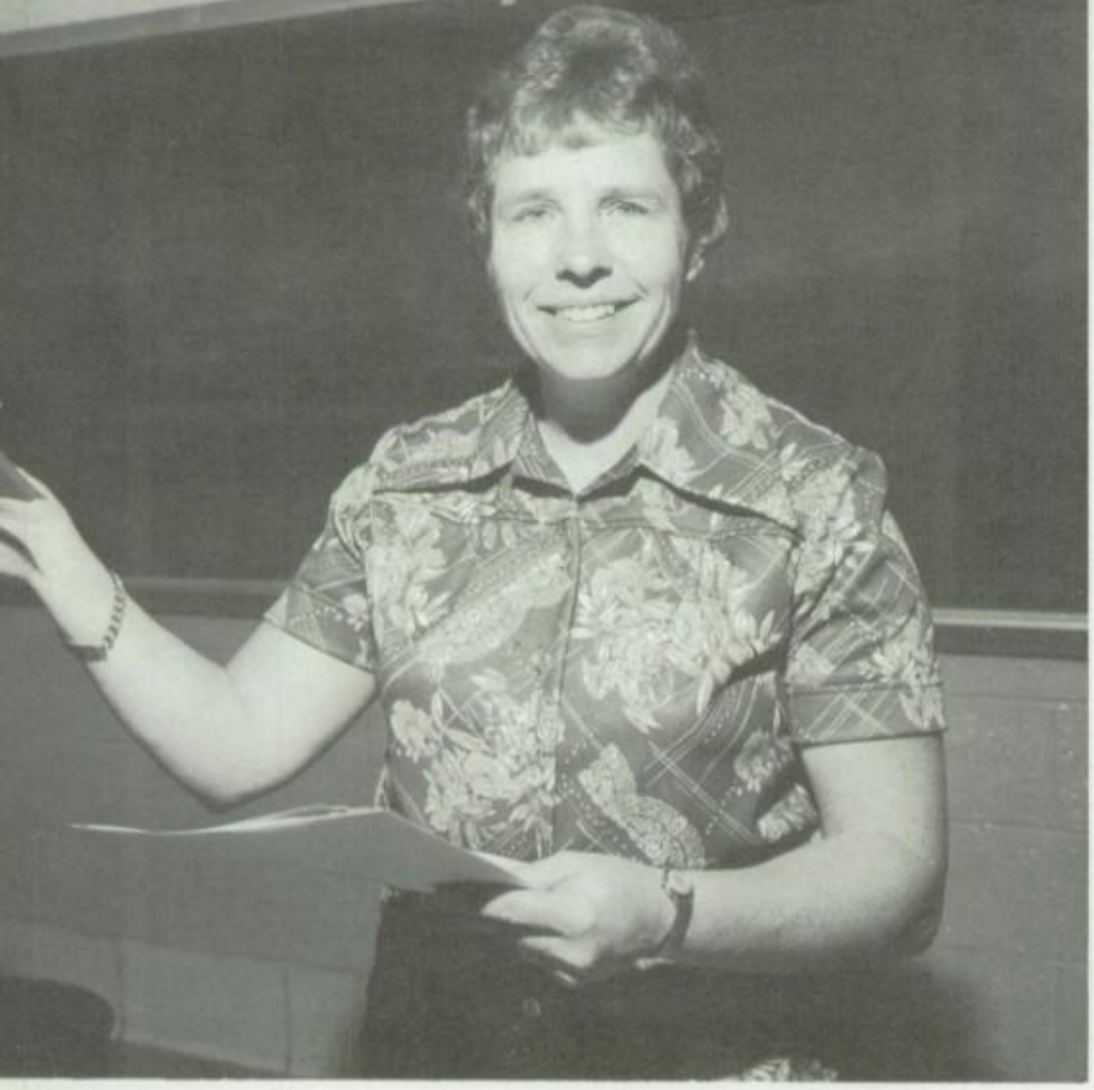
Joan Peters; English and Latin; Scholastic Team coach; National Honor Society Advisor; Goal; To be a pediatric nurse in Cape Cod.

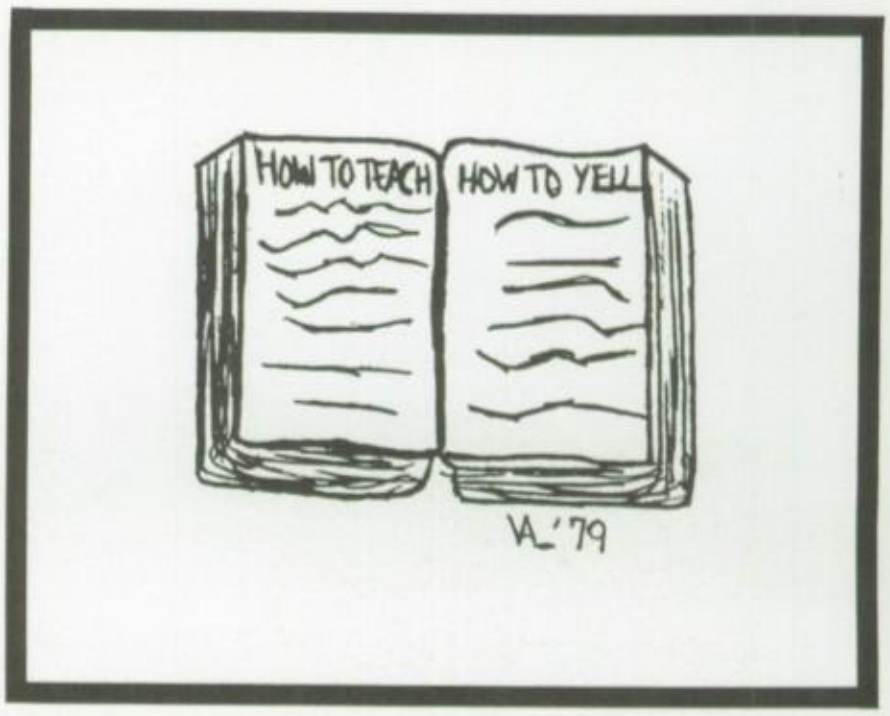
Mary A. Ketterer; 10th, 11th English; Goal: To train Tahitian animals to perform at Disneyworld.

Lyn Ofrane; English, Mass Media, yearbook advisor; Goal: To be Little Orphan Annie's dog sitter.

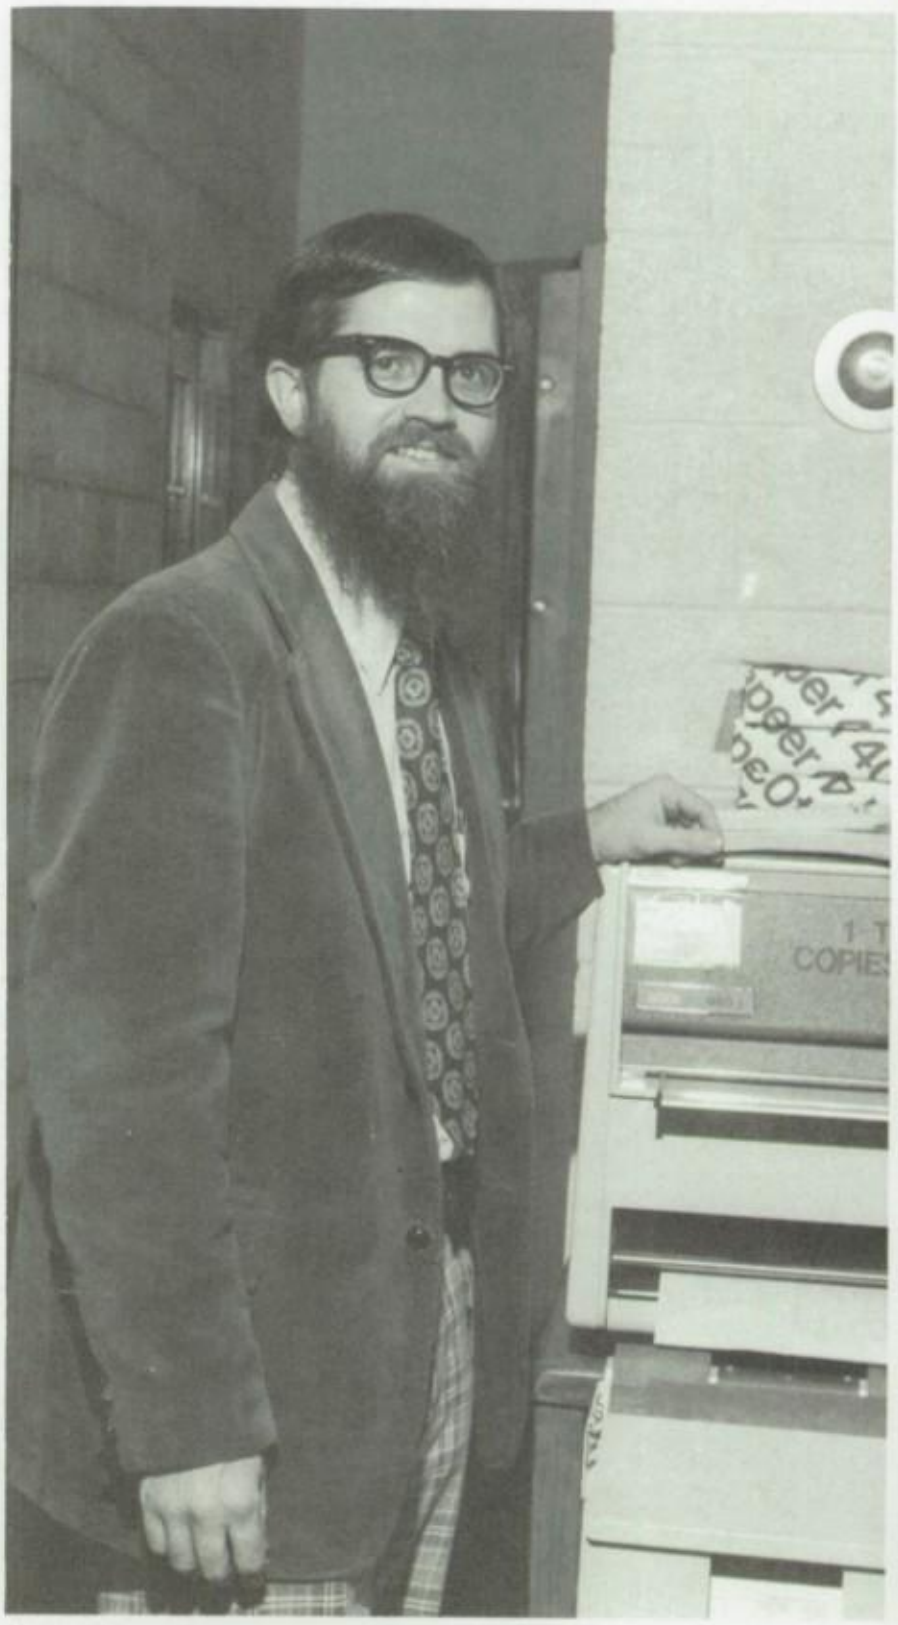
Lillian DeLeo; Spanish, English, American History I; Goal: To visit Kyoto.

Ginny John; 7th and 8th English; Macrame Club Advisor; Goal: To be a camp counselor in Switzerland.





Tom Smith; Reading; Checkers Club Advisor; Goal: To visit Walden Pond.

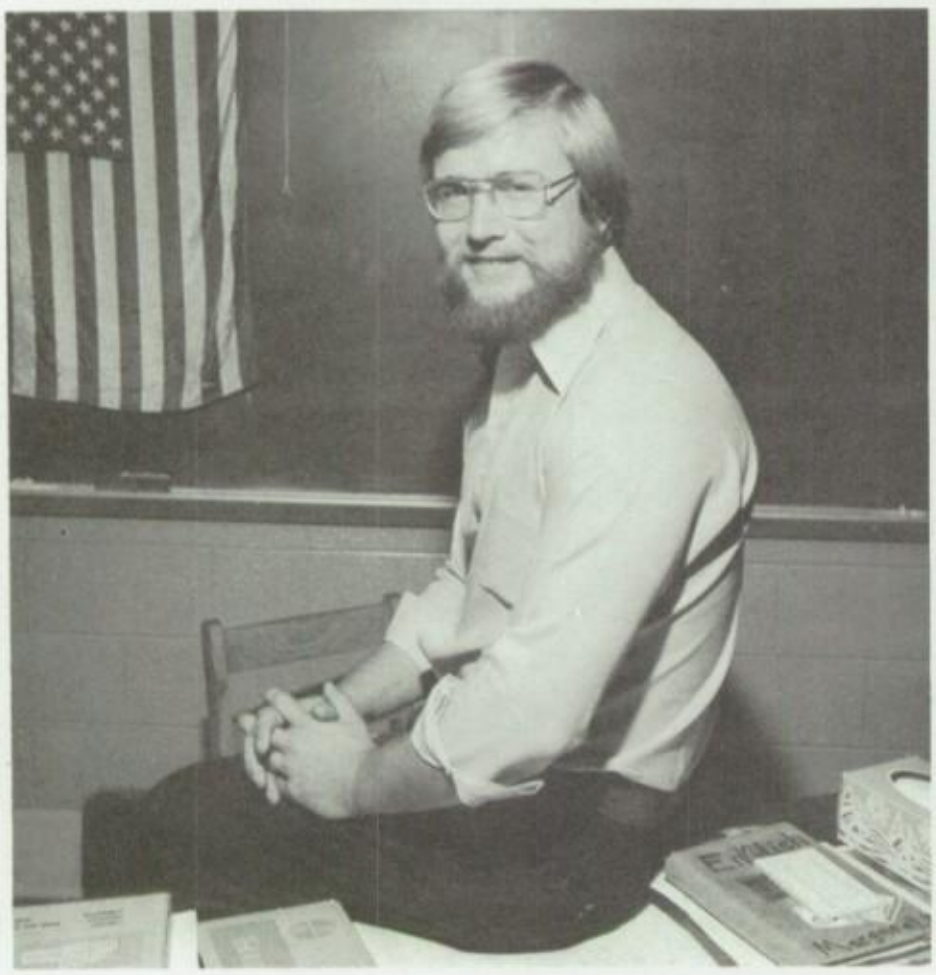


Mary Jane Hoffman; German.

Elizabeth Seibert; Librarian.

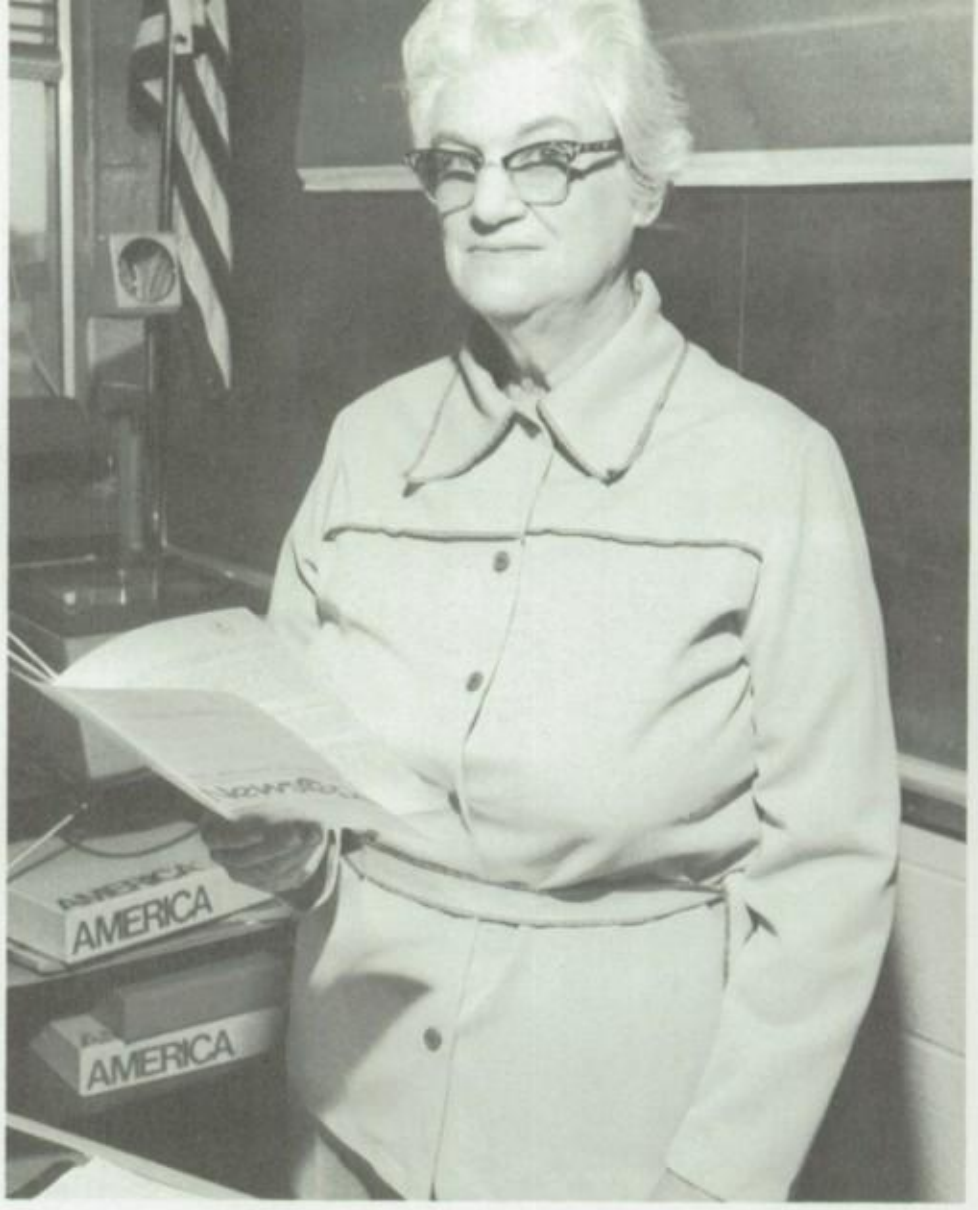
Paul J. Pasko; French, English; French Club Advisor; Goal: To stack the shelves of ACME markets throughout the world.

Thomas Daniel Brown; Jr. High English; Goal: to be a mattress tester



SOCIAL STUDIES DEPARTMENT

. . . Then he shifted his attentions to the Social Studies Department. Knowing the intense amount of knowledge to be transferred from teacher to student, he directed his talent to staff this department with the superior intellect requuired to systematically produce the ultimate in scholastic achievement within the bounds of historical knowledge. "My Social Studies staff," thought Mr. Snyder aloud, "should possess the ability to extend their knowledge of both current and past affairs. These teachers should also be able to relate personal experiences to the students. And through this relationship, they should combine the past and the present to produce a new and truly enjoyable medium of education. This is what MUST be accomplished."



Barbara Pease; American History II; Goal: To travel through the warmer regions of the U.S.

David Kovaleski; Remedial Reading Specialist; Geography; Soccer coach, Junior high wrestling coach, Varsity Baseball Coach, Outdoor Club advisor; Goal: To open a pizza hut in Warsaw.

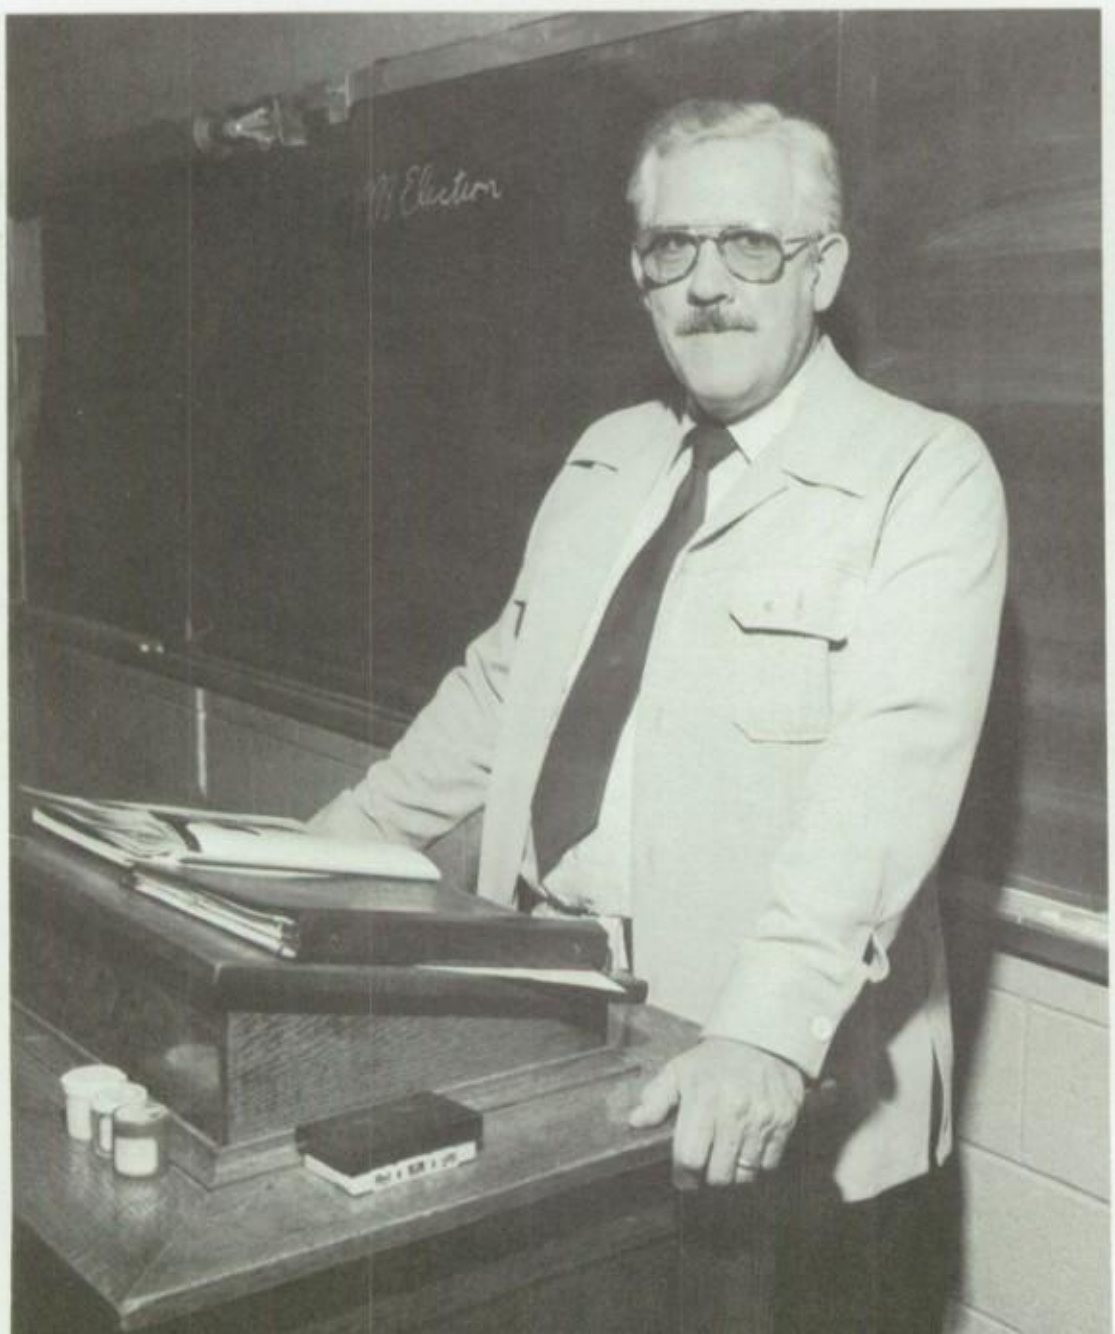
Robert DeLuca; American History I, American Government, Driver Training; Goal: To continue life in Harford, Pennsylvania.



Learning takes on many shapes and fashions . . .
it's for more than just the moment . . .
we learn today what we will use tomorrow.

Out of the masses steps the individual . . .
all that one is and all that one will become.
As individuals we search for identity and strive for excellence.

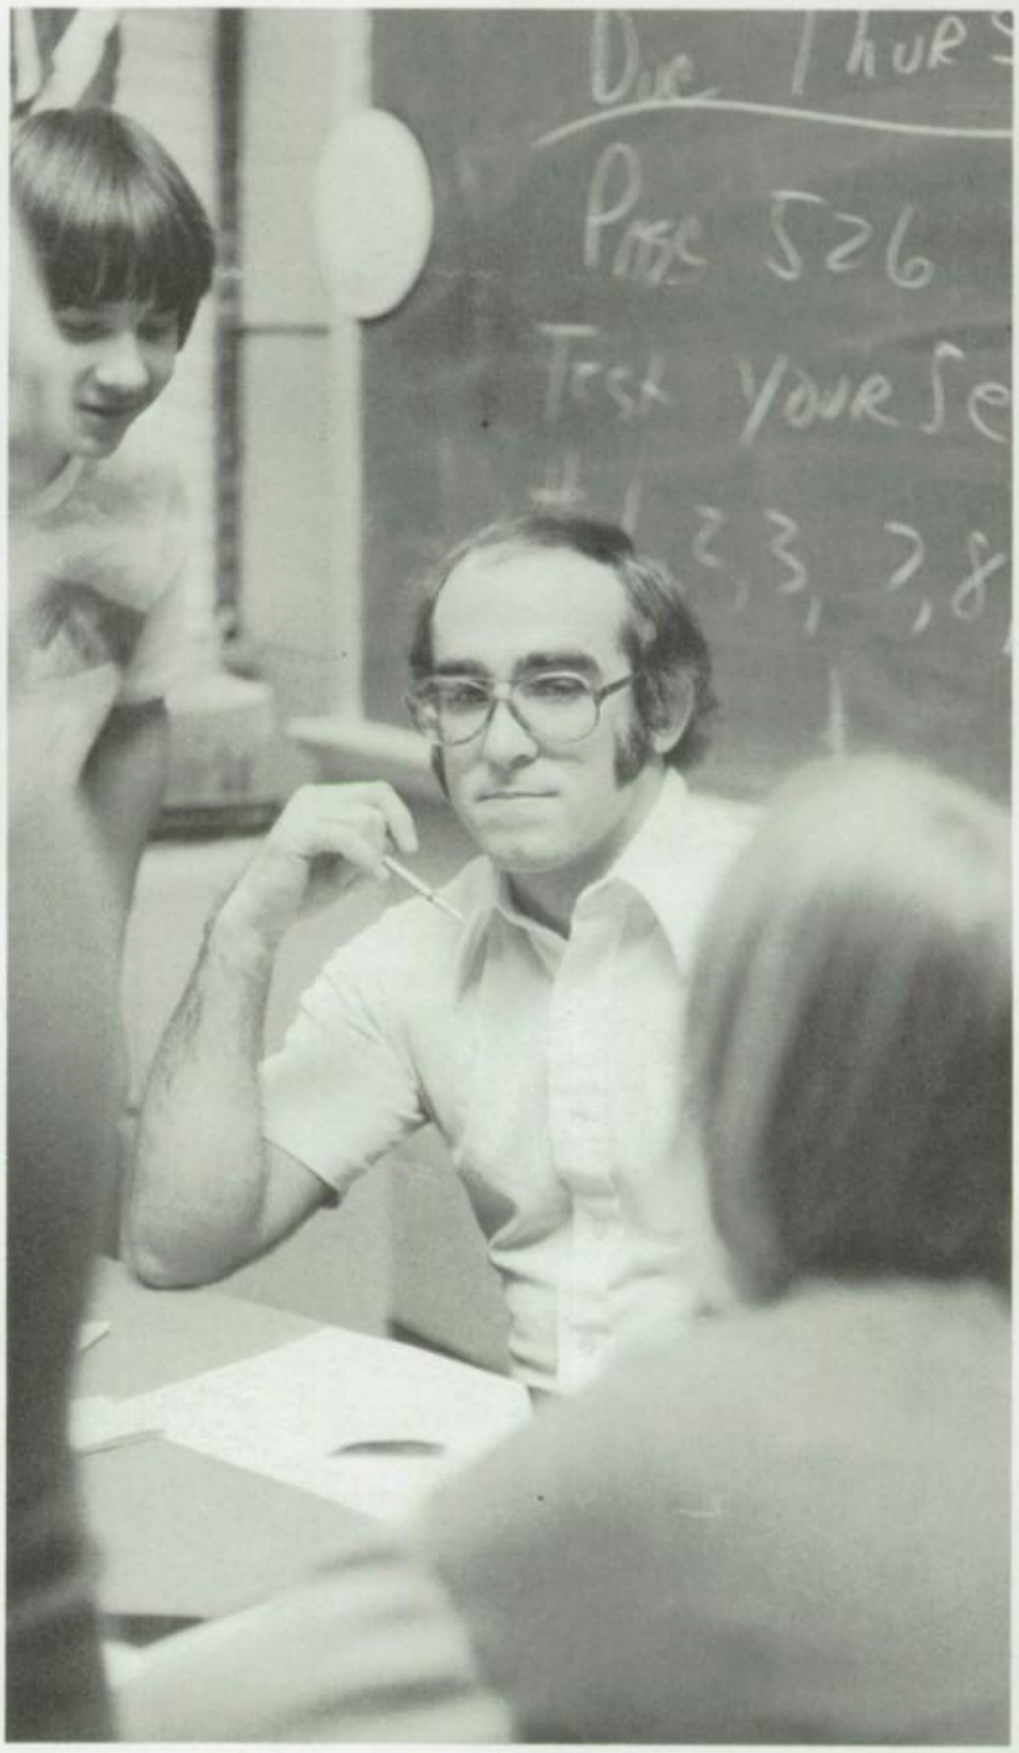
To educate is the purpose of a school.
The administration and faculty work toward this goal year after year.
Their experience, training and background are used
to make a well educated citizenery.

SCIENCE DEPARTMENT

. . . Next came the Science Department. Because of the vast array of specialized areas within this field, he determined that he should procure an array of specialized experts. Dredging through his EMForce files, he developed the conception of a science staff with the universal knowledge and expertise to enthrall their students with facts and stimulate their intellectual desire to learn.

Richard C. Wagner; Biology, Botany, Conservation Forestry; Senior class advisor; Goal: To join the Lone Ranger in his quest to eliminate the evils of the Texas Frontier.

Dennis Holbrook; Science 7th; JV Wrestling coach; Goal: To travel the world, camping and hunting in every forest and catching a fish in every stream.



Gregory Rogers; Science 7th, 9th; Wrestling coach.

Bernard Tomcykoski; Chemistry, Physics, Math, Intro to Physical Science; Goal: To win the PA Lottery and use the money to take a trip to Poland.

. . . "Hands-on", thought Mr. Snyder. The Science Department should strictly enforce a hands-on policy. Without a doubt, the best way for students to learn is by doing." By providing a hands-on learning evnironment, Mr. Snyder hoped to provide a stimulating and inspiring department which would totally enlighten his students in the scientific aspects of education.

Peter Lisowski; Health; Goal: To reach and enjoy retirement.

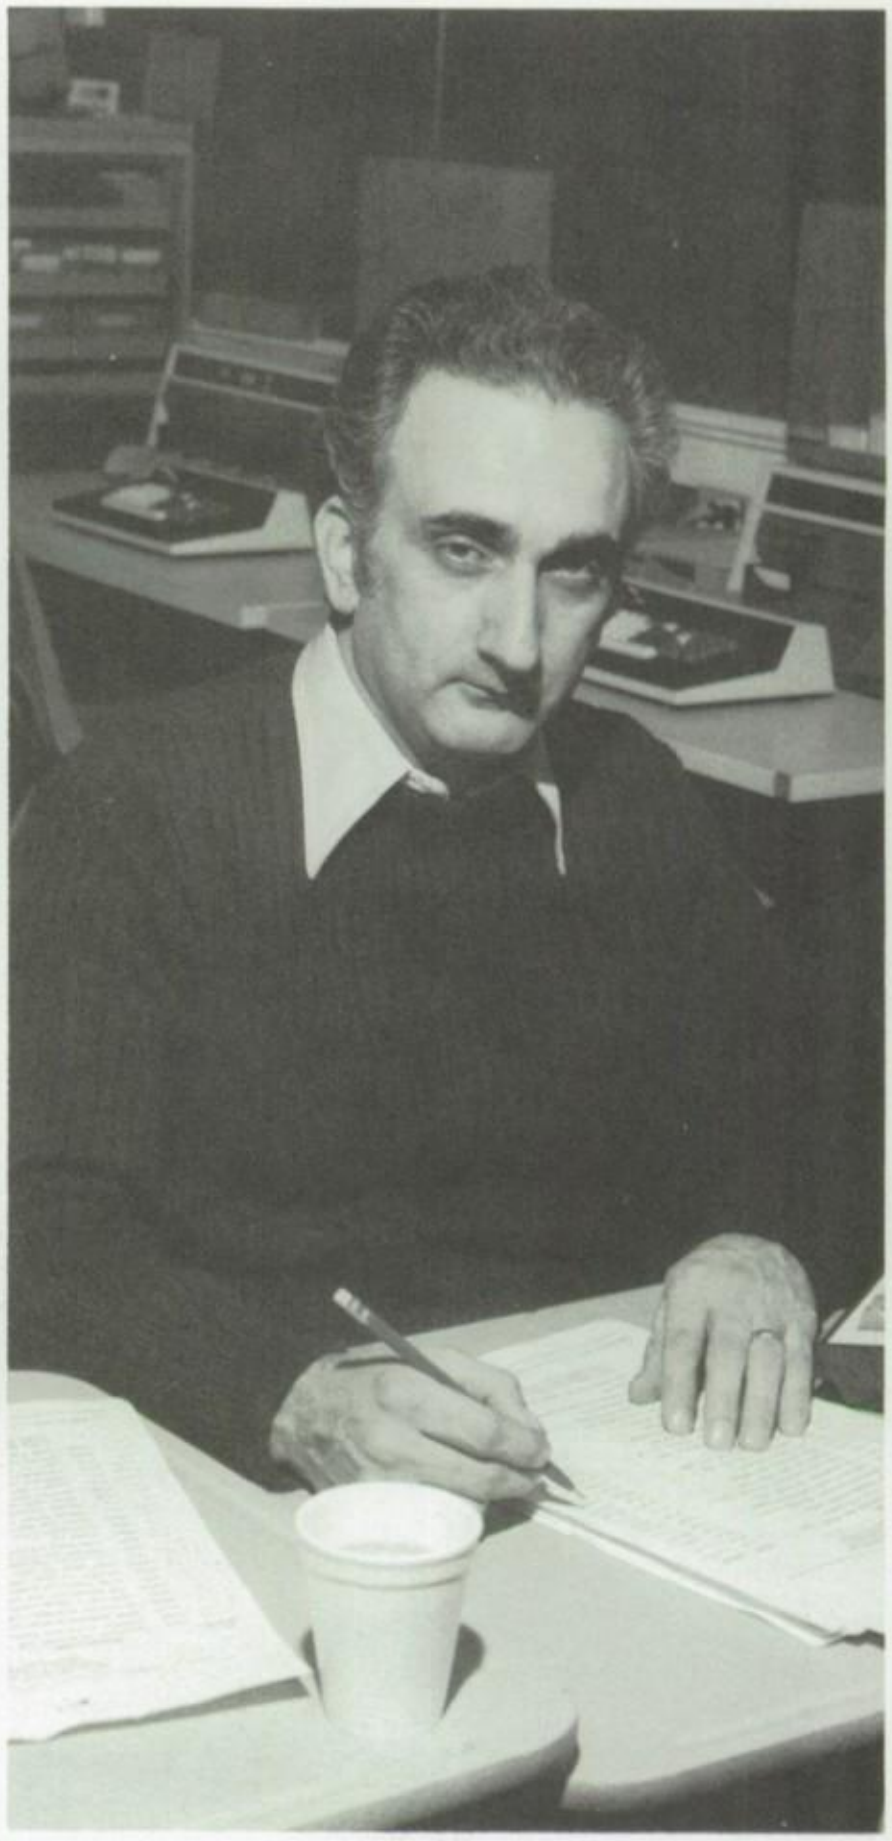
Ralph Kehrli; Art, Anatomy and Physiology, Theatre Arts; AV Coordinator, Director of Special Events, Wrestling assistant, Soccer assistant, Drama club advisor; Goal: To do an archeological survey of ancient Vermont.

J. Stuart W. Slocum; General Science; Stamp club advisor, Aquarium-Terrarium club advisor; Goal: To farm the Yukon Territory.

Raymond J. Popick; Business-Typing I, II, Shorthand I, II; Business team advisor; Goal: To reinact Custer's last stand.

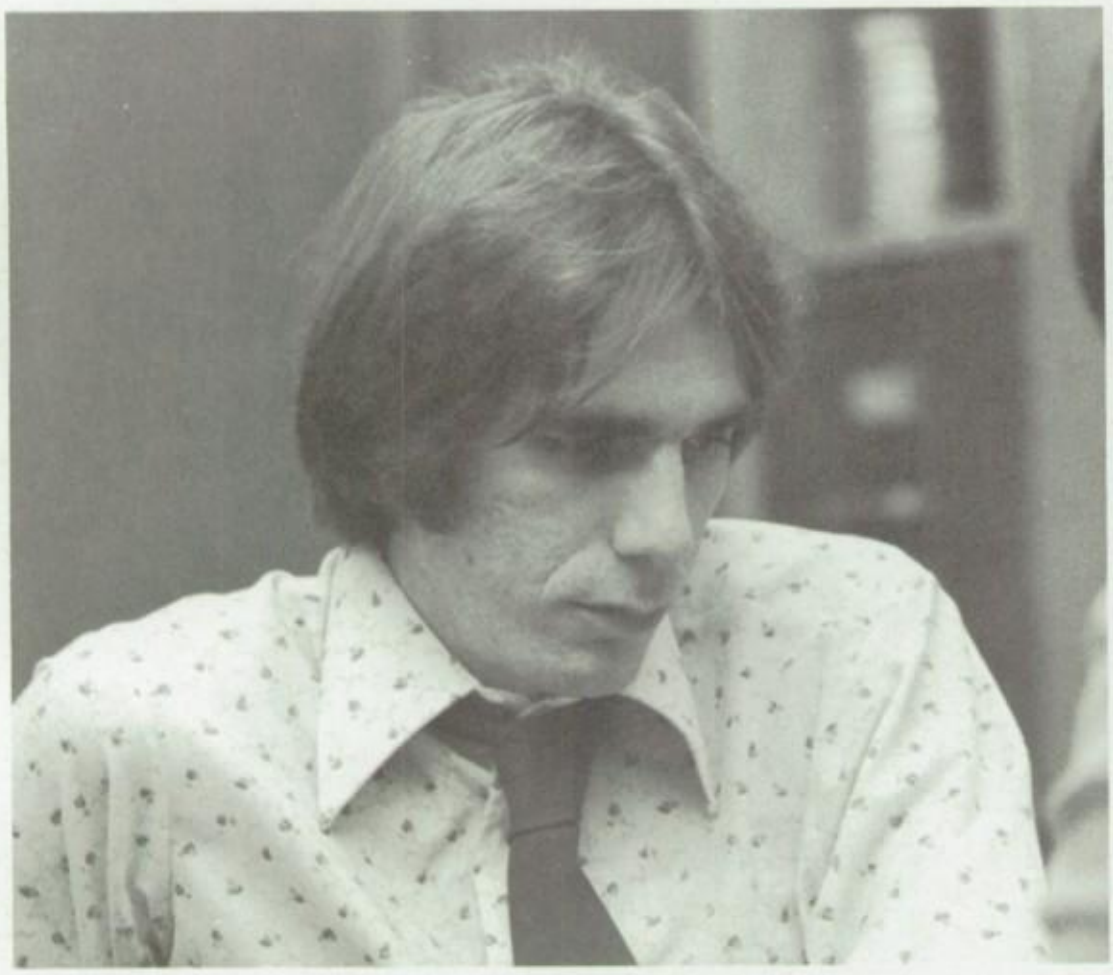
BUSINESS DEPARTMENT

. . . When it came time to choose the members of this department, Mr. Snyder thought, "The time has come to really get down to business." And that he did. Tearing through his EMForce files, he quickly exhausted the possibilities of adequately talented and intellectually qualified people to succumb to the demand involved. Based on the knowledge that the world of business is becoming more and more technologically orientated, he planned for a widening of the students' knowledge in the basic and advanced modes of business education.



Joseph Leonardo; Data Processing, Accounting, BLOP, Report cards

Janet R. Noreika; Typing I, Accounting I, Intro to Distributive Ed, Salesmanship, General Business and Advertising, Marketing and Display; Junior class advisor, Ski club advisor; Goal: To tour Europe, healing all poor, sick animals.



Barry L. Boone; 8th Math, Algebra I, II; Chess club coach; Goal: To hang glide through Heaven.

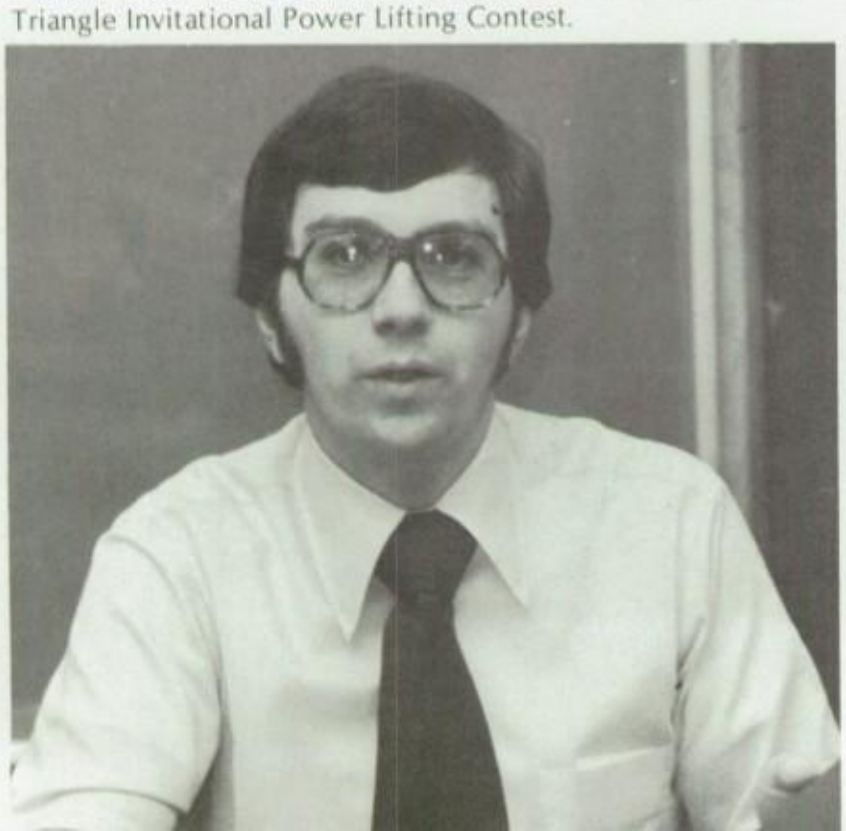
Paul A. Candelori; 7th Math, Senior math; Weightlifting club advisor; Goal: To sponsor and win the First Annual Bermuda Triangle Invitational Power Lifting Contest.



John Michaels; 7th Math, Algebra I, Computer Programming, Drivers Ed., Model Club advisor.

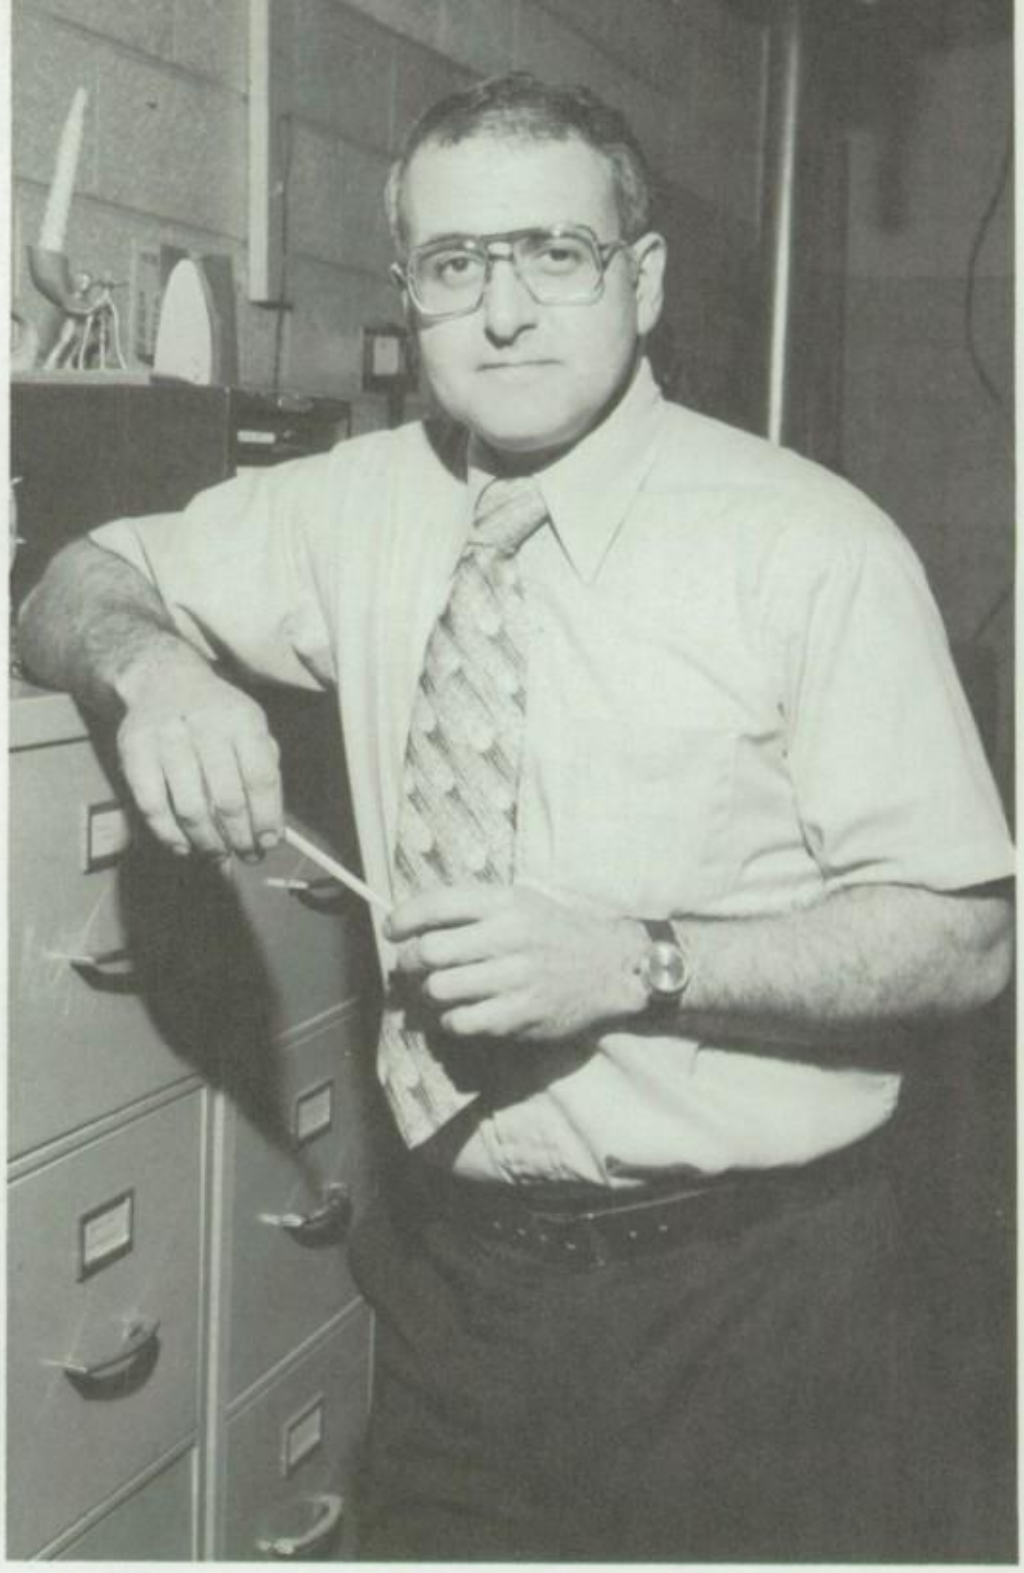
MATH DEPARTMENT

. . . Then Mr. Snyder's attention was shifted to the Math Department. His purpose – to ascertain the analytical talent to produce superlative comprehension in the uniform thought processes implicated. "The faculty in this department," he decided, "must achieve a transfer of education consisting of the basic Keystone concepts used within the range of a meaningful math curriculum." Thus, a precendent of superior integrity within the Mountain View Math Department was initiated with the intention to continue on this virtuous path.

VOCATIONAL DEPARMENT

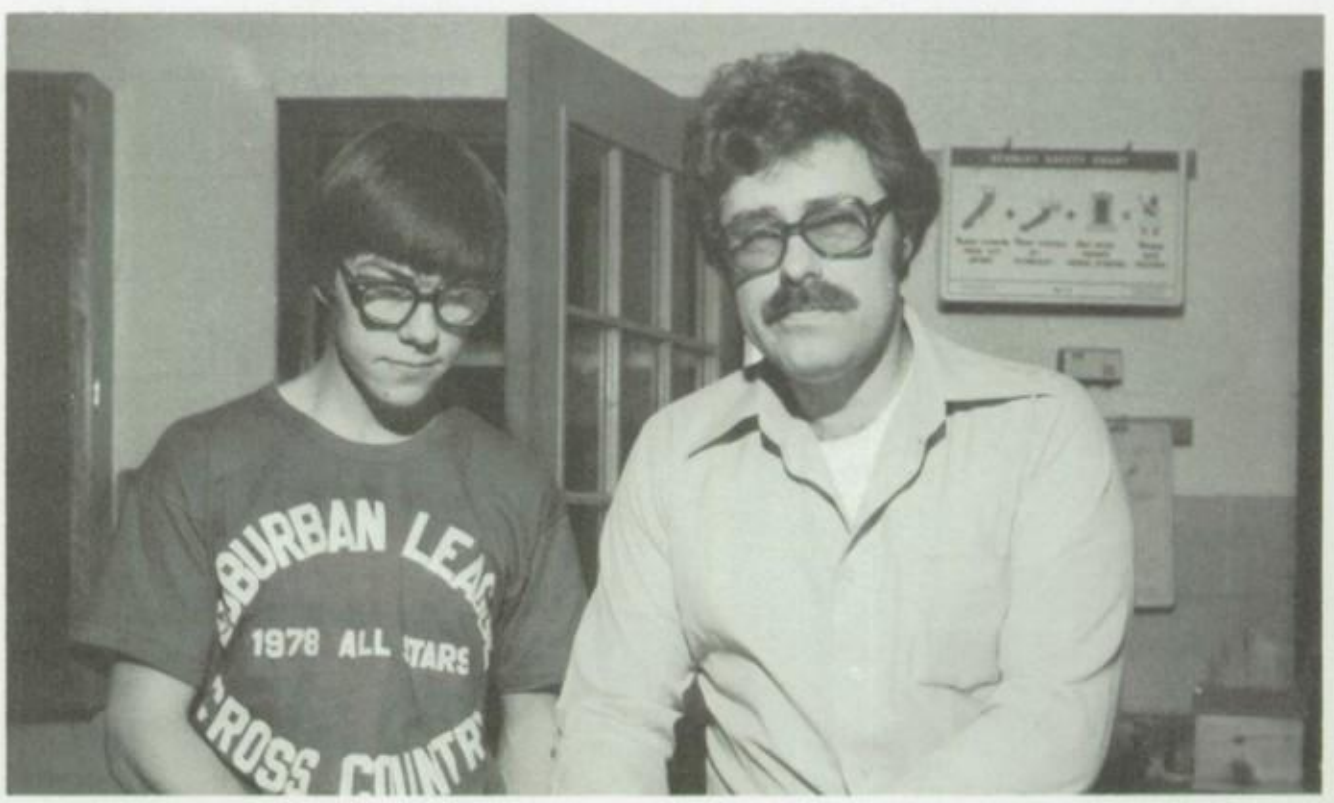
. . . Within the bounds of experience and realism, lies the Vocational Education Department. This department has been formed to give students the knowledge and background to succeed in future endeavors. "The relationship of what should be taught to actual predicaments in life must be considered by the faculty in order to provide a more enjoyable work experience for both student and teacher. Thus, the staff I must choose will be an important aspect in the future of the Mountain View Alumni, "thought Mr. Snyder.

Irene Demchak; Home Economics; YEA, Senate Forum; Goal: To patiently live, cultivating my garden.



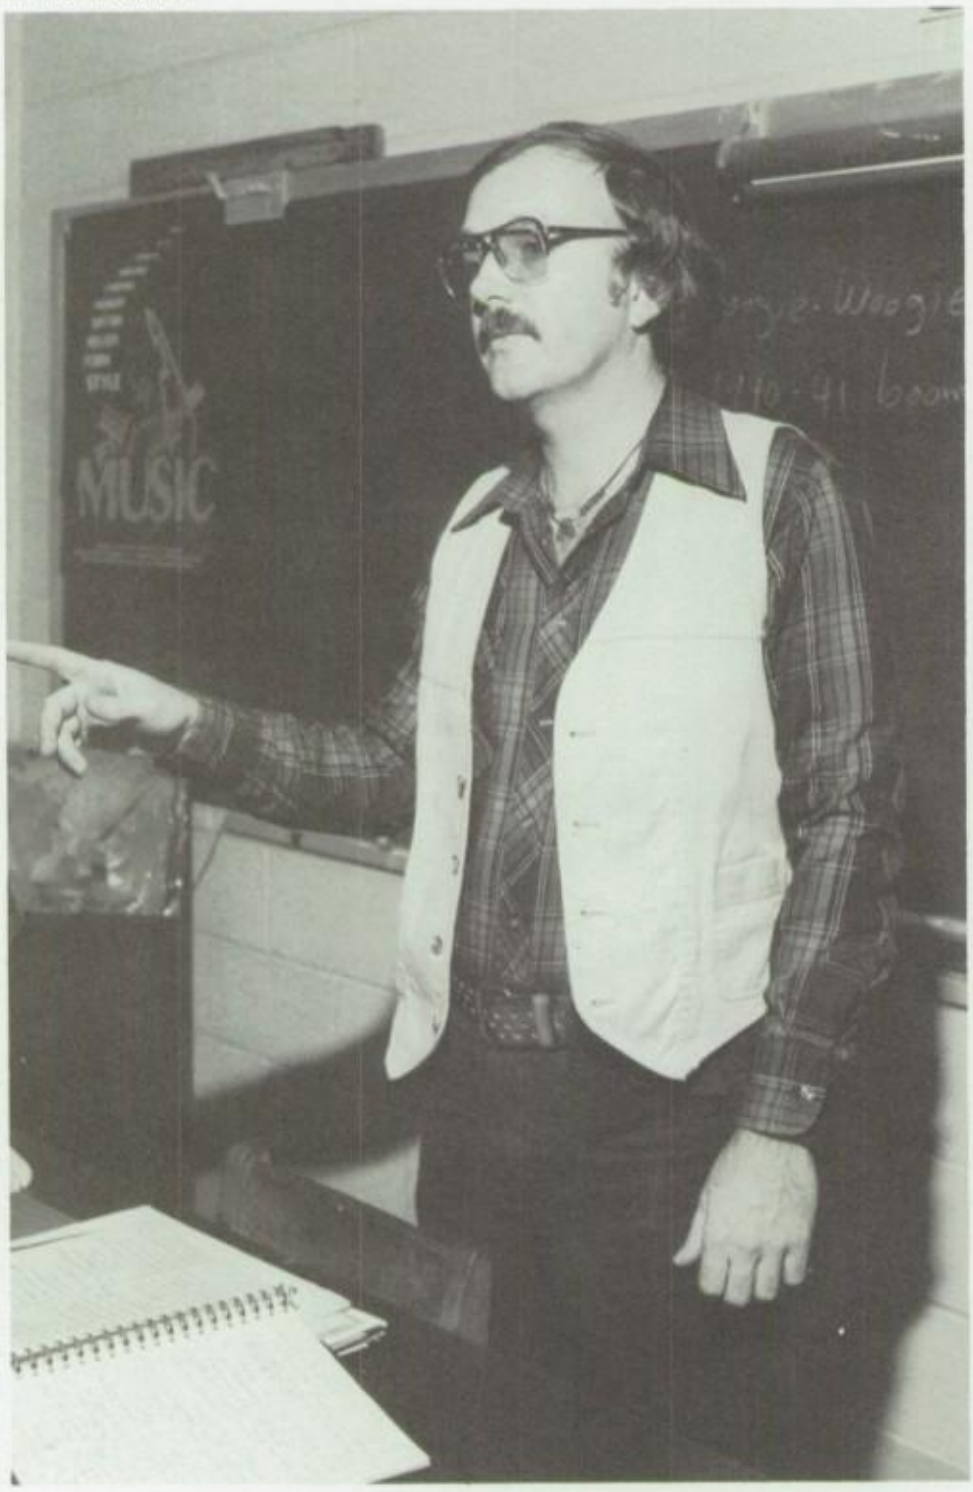
Thomas Koes; Industrial Arts.

Marie G. Maynard; Home Economics; FHA Advisor, Crafts Club Advisor; Goal: To start an ice-cube franchise in Switzerland.



Ronald S. Barankovich; Industrial Arts (wood); Baseball; Archery Club and Outdoor Club Advisor; Goal: To retire into an environmentally clean South Sea Island (no male inhabitants).

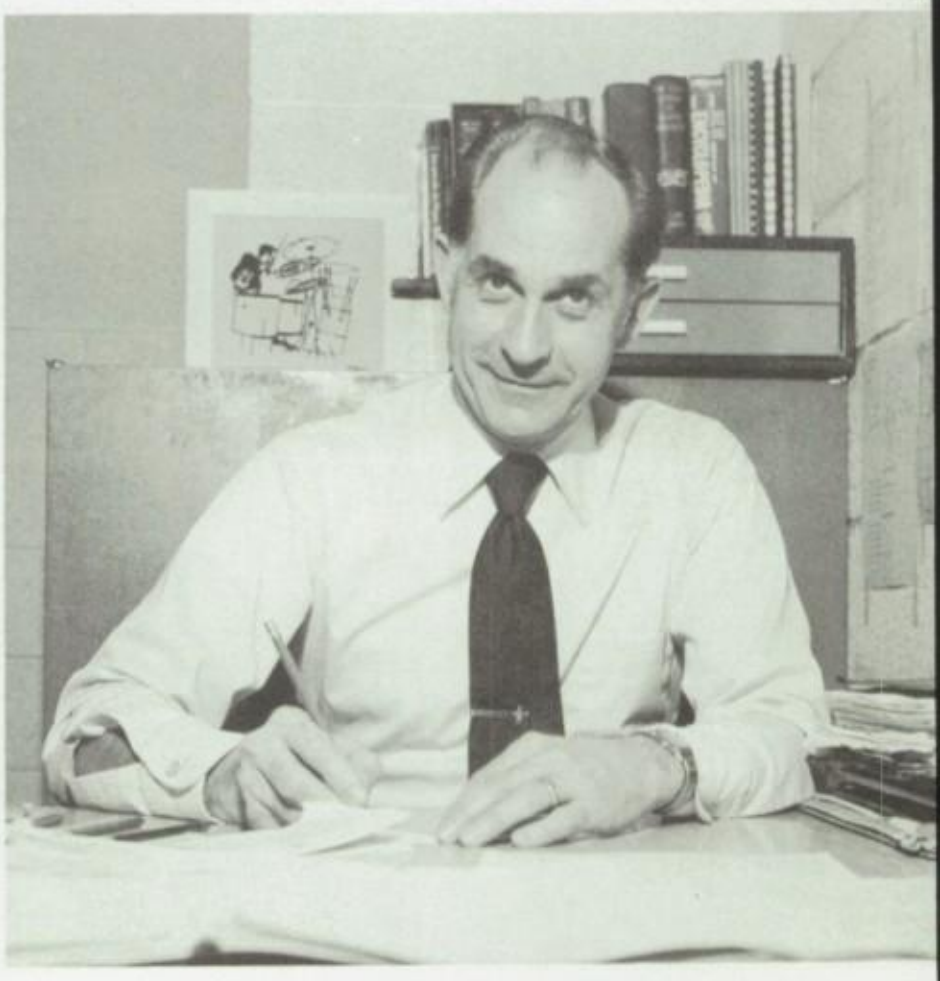
William C. Shaw; Industrial Arts, Ski Club, Goal: To be a Mountain guide in the Rockies.



William C. Woelkers; 7th, 7th General Music, 9-12 Rock Mod, Instrumental Lessons, Jr. and Sr. Chorus Director; Goal: To race a car through the American Southwest.

MUSIC DEPARTMENT

. . . In the field of music, Mr. Snyder set out to find individuals that were apt in all facets of the implied course. "Singing, instrumental ability, and a musical background should all be included in the music teachers list of talents", thought Mr. Snyder. They should not only be acquainted with the history of music, but also have some idea of its future. Music, although seeming basic, and rather common, is exactly the opposite. Music is as complex as the universe, and its outlets of value are abundant. What must be found is a music staff that can realize, appreciate, and interpret these values to their students for the benefit of all."



Hendrick B. Marr; Director of Music, Sr. and Jr. Band Director; Goal: To photograph the Hawaiian Islands.

R. Jeanne Lally; Guidance.

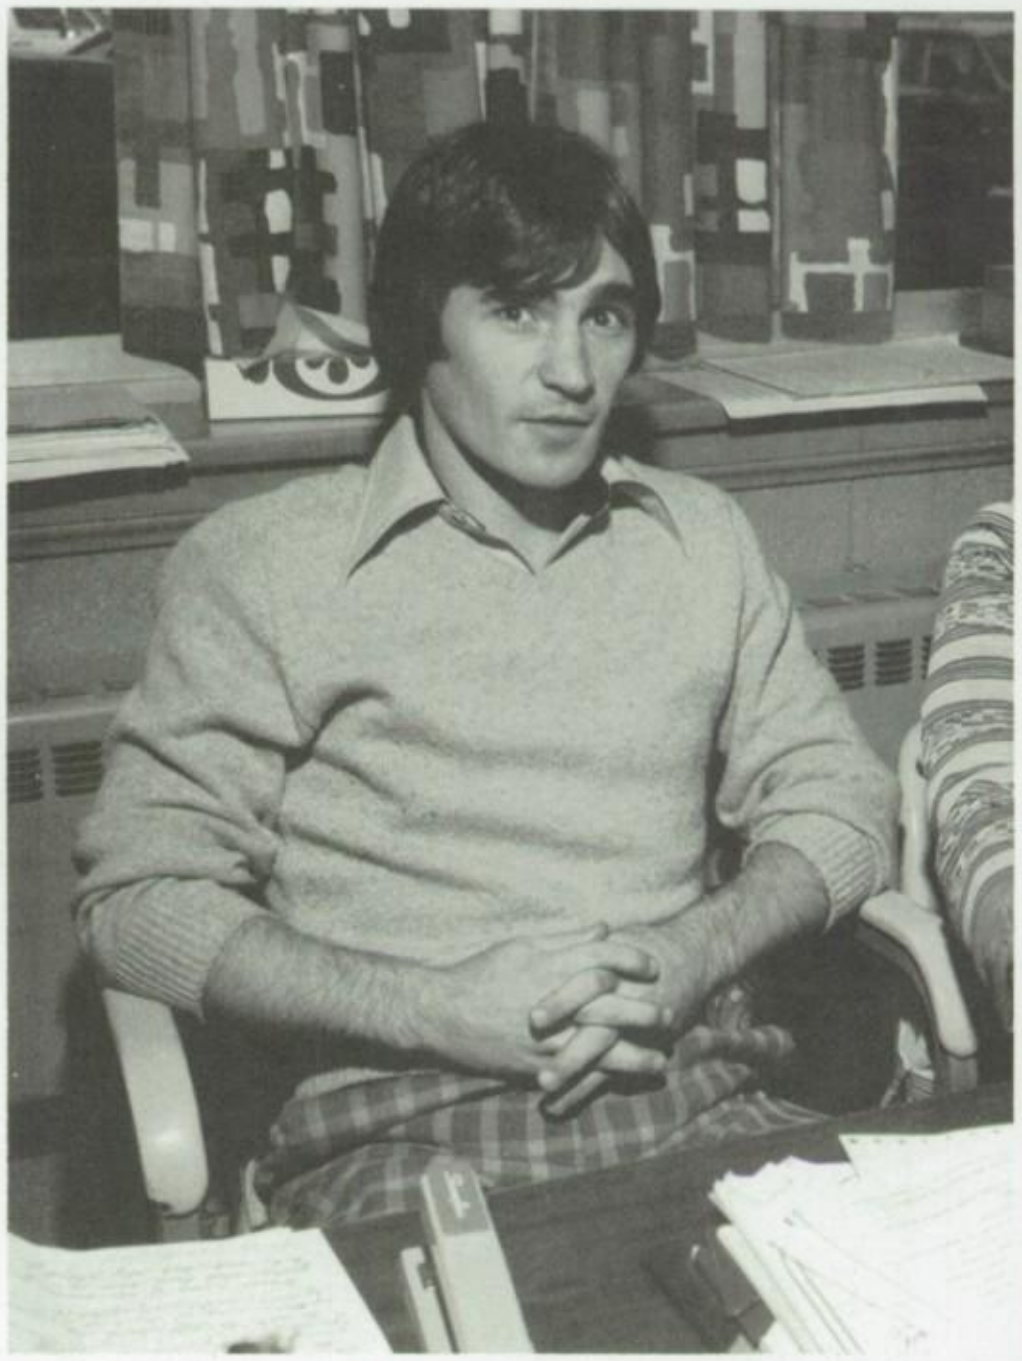
James Scott; Disciplinarian; Co-op.

. . . After choosing the core of the education process, his thoughts turned toward guidance. "What we need", thought Mr. Snyder, "is the talent, knowledge, and patience to take and guide these young people to their final goal – life in the outside world." At that instant, a guidance staff flashed through his mind. Miss Lally, Mr. Dziedzic, and Mr. Jurbala were the logical choices.

Because of the large assortment of individuals enrolled at Mountain View, Mr. Snyder searched his files for, and chose with uncommon ease, a man to handle disciplinary problems. Mr. Scott confronts the challenge.

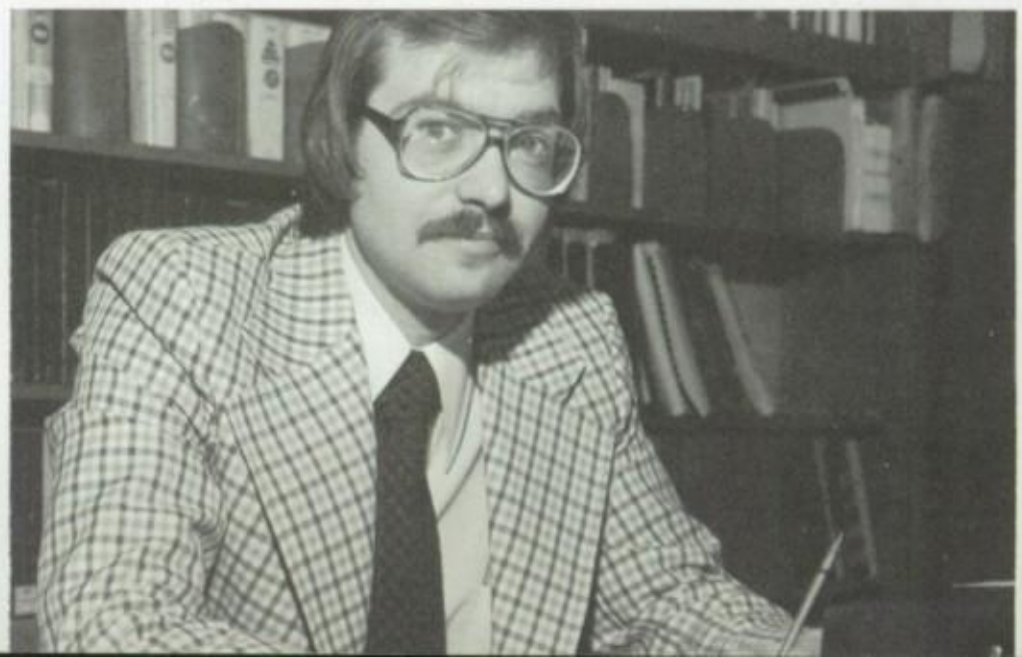
Since studying is an invaluable part of education, Mr. Snyder selected as individual to guide and aid students in the process of maintaining a quiet and orderly study hall. Mr. Kane was a wise choice.

Thomas Kane; Study Hall co-ordinator.



Joseph Dziedzic; Guidance;

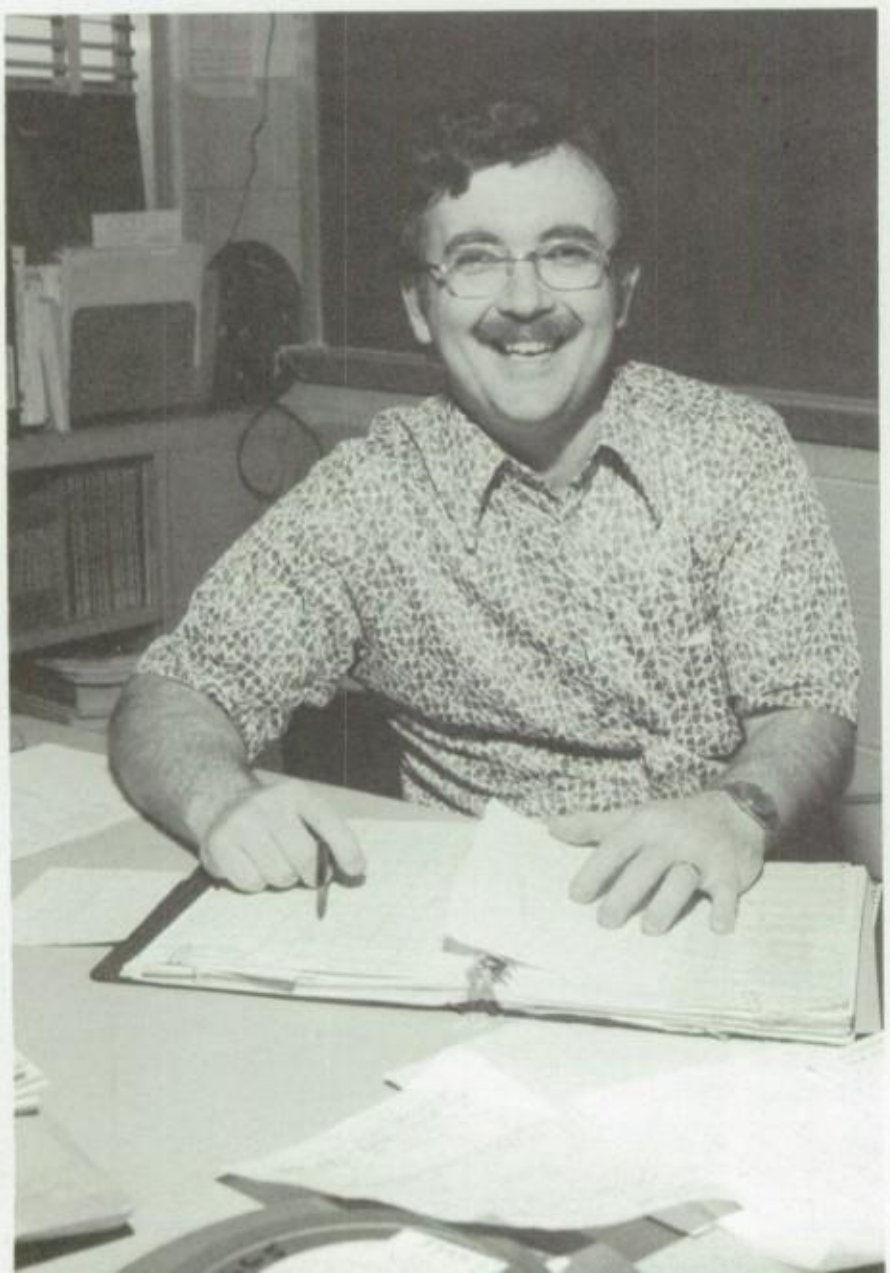
Robert Jurbala; Elementary guidance.



Bill McLaughlin; Phys. Ed.; Varisty basketball coach, Junior high track coach.

Nancy Slick; Phys. Ed.; Girls' basketball and track coach.

Louise Kilkenny and Catherine Escandel – School nurses.



. . . Knowing that not all individuals are not at the same learning level, Mr. Snyder decided to engage a teacher to devote all his time to the education of students who need extra and intensified help. He explored his files and found the man for the job – Mr. Morreale.

Common sense told Mr. Snyder that an adequate health care service is necessary in a school system. Knowing that just adequate was not enough for Mountain View, he chose Mrs. Escandel and Mrs. Kilkenny to handle the project.

"Aside from healthy and strong minds, guidance and direction for students in physical development is essential," thought Mr. Snyder. With this awareness in mind, he selected Mrs. Slick and Mr. McLaughlin to assist.

Terry Morreale; Basic education.

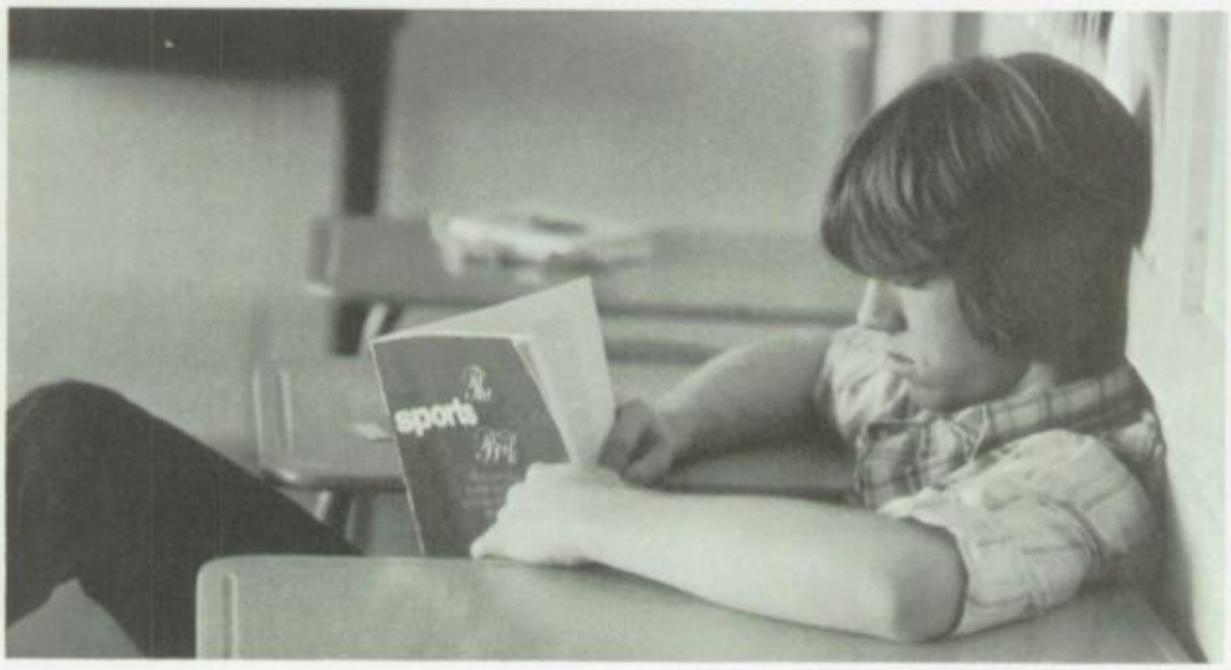
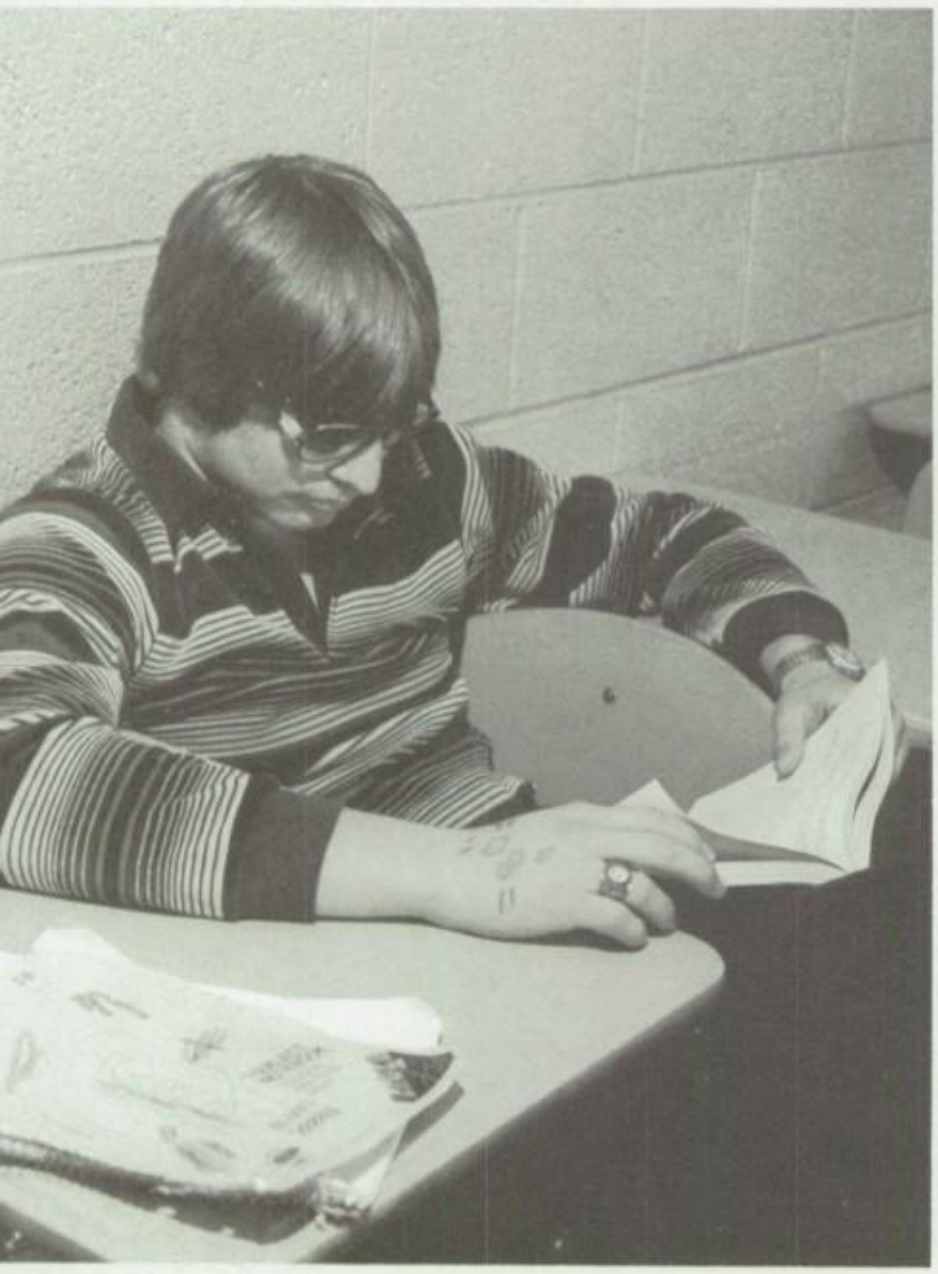
A little more tired at the close of day.
A little less anxious to have our way.

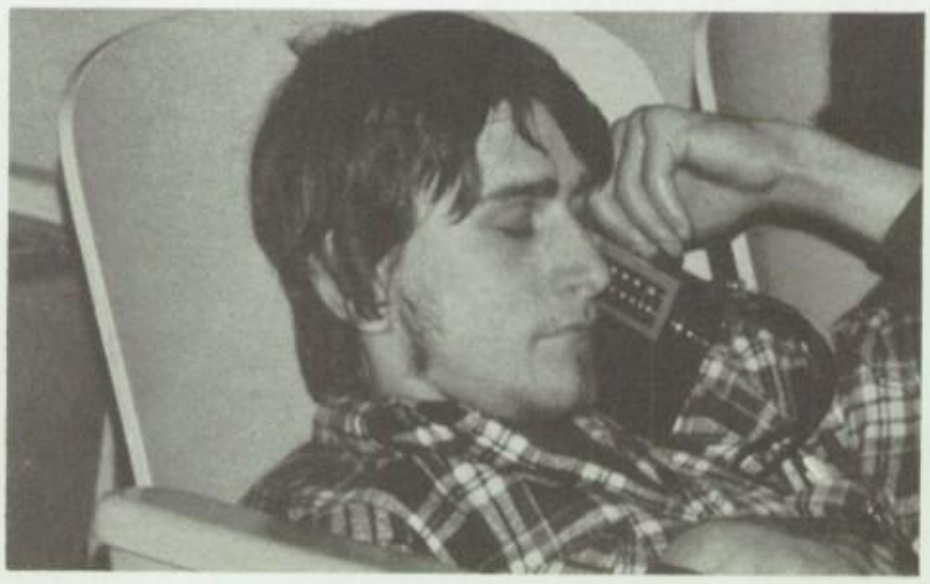


A little more leisure
to sit and dream.
A little more real
the things unseen.

A little more love for
the friends of youth.
A little less zeal for
established truth.

A little more strength
for things not done.
A little more pride
in games we won.





This book is closed,
good byes have been said,
Now we look toward our lives ahead.

Getting it together...

Special thank-yous to: Dan Euker for his beautiful color and black and white photography. Will Novak from Varden for his guidance and suggestions. Gene Mulkerin from Varden for his great action shots and his patience when we rushed him on club days. And Charlie Bollinger, our Herff Jones representative, for his incredible creativity and helpfulness.

Don't be dismayed at good-byes.
A farewell is necessary before you can meet again.
And meeting again, after moments or lifetimes,
Is certain for those who are friends.
